AIRPORT APPROACH SURFACE. A surface longitudinally centered on the extended runway centerline and extending outward and upward from each end of the **airport primary surface** of a **public-use airport**. An **AIRPORT APPROACH SURFACE** is applied to each end of each runway based upon the type of approach available or planned for that runway end. The following also applies to the **AIRPORT APPROACH SURFACE**:

- (1) The inner edge of the **AIRPORT APPROACH SURFACE** is the same width as the **airport primary surface** and it expands uniformly to a width of the following:
 - (a) 1,250' for that end of a runway with only visual approaches;
 - (b) 1,500' for that end of a runway other than an **airport utility runway** with only visual approaches;

The radius of each arc is 5,000' for all **airport runways** designated as **utility** or **visual**, and 10,000' for all other runways. The radius of the arc specified for each end of a runway will have the same arithmetical value. That value will be the highest determined for either end of the runway. When the runway has a specially prepared hard surface, the **AIRPORT PRIMARY SURFACE** extends 200' beyond each end of the runway, but when the runway has no specially prepared hard surface, or planned hard surface, the **AIRPORT PRIMARY SURFACE** ends at each end of that runway. The elevation of any point

2-5-14 DESIGN REQUIREMENTS:

To ensure privacy, separation, and a useful interface between indoor and outdoor spaces, and to ensure compatibility with surrounding land **uses**, the following design elements are required for all R1Z ZLL **dwelling**s:

- The wall of a **dwelling** located on a shared **side lot line** shall be free of doors, other openings, air conditioning units, utility meters and faucets. This wall shall also contain no windows, except for ones made entirely of obscure glass and located at least 6' above any inside floor other than a basement floor. No dormer shall overlook the adjacent **side setback**. Roof eaves (including gutters) may extend 2' over the shared **side lot line**, but gutters and downspouts shall direct rainwater back to the **lot** that the **dwelling** is built on.
- A **rear lot line** cannot also serve as a **side lot line** for another **lot**.
- An **atrium** along the shared **side lot line**, enclosed on 3 sides by the **dwelling**, shall be enclosed along that **lot line** by a solid wall, at least 8' high, built of the same material as the outside of the **dwelling**.

2-5 ZERO LOT LINE (ZLL)

R1Z

SINGLE-FAMILY RESIDENTIAL ZONES, cont'd.

R1Z

- (d) An offset along the shared **side lot line**, at either the front or rear of the **dwelling**, shall also be enclosed along that **side lot line** by a solid wall, at least 8' high, continuous with and built of the same material as the outside of the **dwelling**. This wall shall extend along the **side lot line** the full length of the offset.
- (e) Closure shall be provided for the required non-ZLL **side setback**, at the **front setback**, along at least 75% of the width of the **side setback**. This closure shall be 3-5' high, and may consist of a wall, or solid fence, or continuous landscape material. In addition, for a **corner lot** with a required non-ZLL **side setback** that abuts a **street**, this same kind of closure shall be provided along at least 50% of the length of the street **side setback**.
- (f) Along the shared **side lot line**, continuous with the rear of the **dwelling** (or the end of its rear offset wall) a solid wall, at least 8' high and built of the same material as the outside of the **dwelling**, shall be extended an additional 6'.
- (g) To better integrate the **dwelling's** interior and exterior spaces, one or more doors shall be provided which open directly onto the required non-ZLL **side setback** from rooms other than the garage or storage or utility areas. Two options are available:
 - (1) at least one door, if it is part of a window and door assembly at least 8' wide, which can be seen through substantially from top to bottom; or
 - (2) at least 2 doors, other than the kind described in (1), from 2 different rooms.
- (h) Regardless of other design requirements, R1Z dwelling units must comply with all relevant building codes.

2-5-15 SUBDIVISION OF PROPOSED R1Z SITES:

- (a) All requests for R1Z zoning shall be accompanied or preceded by a complete application for major sketch plan review.
- (b) To help determine the appropriateness of the rezoning request, a sketch plan review, pursuant to the requirements of the Unified Subdivision Ordinance, shall be completed no less than a week before the public hearing on the rezoning request.

- (c) An irrevocable **easement**, 5' wide, shall be provided on the adjacent property, permitting access for maintenance purposes along the entire length of the wall on the ZLL side. This **easement** shall be kept clear of **structures**. The **easement** shall be shown on the face of any **plat**, made part of restrictive covenants, and included in any deed transferring title to the property.

AA	2-24 SELECT AGRICULTURAL ZONES	AA
2-24-1	INTENT:	To provide areas identified within the adopted <i>Comprehensive Plan</i> as having either highest or a combination of high and highest potential for agricultural use , where no urbanization has occurred, and which are to be reserved for the wide range of agricultural activities and the homes primarily of those engaged in such activities and of their families.
2-24-2	BOUNDARIES: Boundaries for AA zones have been drawn to include substantial areas having either highest or a combination of high and highest potential for agricultural use . These potentials have been determined by applying the <i>Land Use Potentials</i> decision-making matrix, used to generate the <i>Phased Land Use Plan</i> within the <i>Comprehensive Plan for Tippecanoe County</i> (adopted September 16, 1981). The methodology is described in <i>Volume 1</i> of the <i>Comprehensive Plan</i> , the <i>Phased Land Use Plan</i> in <i>Volume 2</i> . When a petitioner applies to rezone AA-zoned land to permit a non-agricultural or related land use , the Commission's staff shall reapply this methodology to the petitioner's site. This will determine what proportion of the site actually has less than high potential for agricultural use . This new information shall then be included in the staff's written report to the Commission. The Commission will then use the information in making its recommendation.

2-26 FLOOD PLAIN ZONES

FP**2-26-1 INTENT:**

To protect lowland areas adjacent to lakes and ponds and areas that are within the ***flood plain*** of rivers and creeks, all of which are subject to inundation and damage from flood waters up to the elevation of the ***regulatory flood***.

2-26-2 BOUNDARIES:

- (a) All land in a ***flood plain*** below the ***regulatory flood*** elevation (Amend 5) shall be contained in an FP **zone**. The boundaries of FP **zones** are as shown on the official zoning maps, and are as approved by the Indiana Department of Natural Resources (IDNR).

FP**2-26 FLOOD PLAIN ZONES, cont'd.****FP**

- (b) For land along streams with an upstream drainage basin of less than one square mile (small drainage basins), the **flood plain** boundary shall be as shown on the official zoning map. IDNR's Division of Water shall determine in writing that a stream's drainage basin is less than one square mile in area.
- (c) Changes in these boundaries shall be made only through the procedures detailed in 2-26-17 below.

2-26-3 USES AND STRUCTURES PERMITTED WITHIN A FLOODWAY**FRINGE:**

The following **uses** and **structures** are permitted, provided that all federal and state permits have been obtained:

- (a) **Primary uses:** see 3-2;
- (b) **structures** accessory to permitted **primary uses**, provided they do not obstruct circulation of water, threaten water quality, create erosion hazards or disrupt significant wildlife habitat, including:
 - (1) detached, unenclosed carports (no walls permitted) and the driveways serving them;
 - (2) fences;
 - (3) mailboxes;
 - (4) **parking spaces**;
 - (5) recreational apparatus;
 - (6) unenclosed shelters (no walls permitted); and
 - (7) water wells and fountains.
- (c) **streets** and bridges;
- (d) **campsites** at **RV parks and campgrounds**;
- (e) peninsulas created of fill material;
- (f) walkways, benches, informational displays, directional **signs**, foot bridges, observation decks, duck blinds, wildlife management shelters and other water-related structures that are constructed on pilings to permit the unobstructed flow of water and preserve the natural contours of the **flood plain**; and
- (g) enhancement of wetlands to improve wildlife habitat in accordance with a plan approved by the Indiana Department of Natural Resources (IDNR).

2-26-4 USES AND STRUCTURES PERMITTED WITHIN A REGULATORY FLOODWAY:

- (a) Same as in 2-26-3 above; and
- (b) boat anchorages, moorings and piers.

FP

However, when IDNR also requires one of these **uses** or **structures** to have a permit to construct in a **floodway**, that **use** or **structure** shall not be permitted until IDNR issues that permit.

2-26-5 USES AND STRUCTURES PROHIBITED WITHIN EITHER A FLOODWAY FRINGE OR REGULATORY FLOODWAY:

The following **uses** and **structures** are prohibited, even if federal and state approvals and/or permits have been obtained:

- (a) additions to existing **structures**;
- (b) **uses** not expressly permitted in 3.2 below.

2-26-6	MINIMUM LOT AREA:	none
2-26-7	MINIMUM LOT WIDTH:	none

FP**2-26 FLOOD PLAIN ZONES, cont'd.****FP****2-26-17 CHANGING FP BOUNDARIES:**

- (a) Where a current ***Flood Insurance Rate Map (FIRM)*** includes the base flood elevation at the property in question, a petitioner seeking to amend the boundaries of FP-zoned land described in 2-26-2-a above, shall provide the ***Executive Director*** with a scaled map of the property and a metes and bounds legal description. The base flood elevation on the ***FIRM*** map is equivalent to the ***regulatory flood elevation***. The ***Executive Director*** shall then determine the ***regulatory flood elevation*** from the current ***FIRM*** map.
- (b) If advised by the ***Executive Director*** that there is no current ***FIRM*** map that includes the base flood elevation at the property in question, a petitioner seeking to amend the boundaries of FP-zoned land described in 2-26-2-a above, shall provide IDNR's Division of Water with a scaled map and metes and bounds legal description. IDNR shall then determine the ***regulatory flood elevation*** and ***floodway*** location for the property on the official zoning maps.
- (c) The ***Executive Director*** may change the boundary of the FP ***zone*** upon a petitioner providing:
 - (1) a written request that the FP boundary be changed; and
 - (2) a metes and bounds legal description of that portion of the property situated at or above the ***regulatory flood elevation*** determined by 2-26-17-a or 2-26-17-b above, certified by a Registered Land Surveyor or Registered Professional Engineer.
- (d) When seeking to amend the boundaries of FP-zoned land described in 2-26-2-b above, the ***regulatory flood*** boundary in these small drainage basins may be adjusted by the ***Executive Director***, upon written request, to the limits of the alluvial soils shown on the U.S. Department of Agriculture's Soil Conservation Service soil maps for Tippecanoe County. The alluvial soils shall be considered as being the ***regulatory floodway***.
- (e) An area of land removed from an FP ***zone*** through the process outlined in 2-26-17-c or 2-26-17-d above, shall take on the zoning of adjacent areas on the zoning map. Where adjacent areas are characterized by more than one ***zone***, the line dividing those ***zones*** shall be extended through the land being removed from the FP ***zone***. These are exceptions:
 - (1) An area in the ***floodway*** that is filled to an elevation at or above the ***regulatory flood*** will still be considered part of the ***floodway***, and shall retain its FP zoning.

FP

FP

- (2) If an island of land is certified as having natural ground elevation at or above that of the **regulatory flood** and is in the **floodway fringe** and adjacent to no **zone** other than an FP **zone**, it shall be zoned AW.
- (3) An area removed from an FP **zone** that is situated next to land previously removed from an FP **zone** shall derive its zoning from that previously removed land only if no other adjacent land is present.
- (4) A PD **zone** shall not be considered an adjacent **zone** for purposes of assigning a new classification to an area removed from an FP **zone**. Land removed from an FP **zone**, situated next to no **zone** other than PD and FP, shall be zoned AW.
- (f) Reclassification of land to some **zone** other than FP in and of itself provides no guarantee that an **improvement location permit** can be issued for any specific proposed **use**.

2-26-18 ADDITIONAL RESTRICTIONS:

To prevent harm to lands within an FP **zone**:

- (a) **Buildings** permitted in adjoining **zones** on land within 100' of an FP **zone** shall comply with the **flood protection grade**;
- (b) Water wells, water lines and sewage facilities located within a **flood plain** shall be constructed to eliminate contamination of or by floodwater;
- (c) Clearcutting of trees in the **floodway** shall be prohibited.
- (d) Peninsulas created of fill material shall be permitted within a **floodway fringe**, and may be permitted within a **regulatory floodway** as per 2-26-4 above. However, islands created of fill material shall not be permitted. No encroachment or fill within the **floodway fringe** or the **regulatory floodway** may increase the base flood elevation for that reach of the stream more than one-tenth of one foot. Indiana Department of Natural Resources, Division of Water, verification of that fact shall be required in writing for **floodways**, or by certification of a Registered Land Surveyor or Professional Engineer if in the **floodway fringe**.
- (e) Additionally, if a **residential** or nonresidential **building** is to be constructed on permanent land fill that raises the elevation of land out of the **floodway fringe**, the fill shall be placed in layers no greater than 1' deep before compacting to 95% of the maximum density obtainable with the Standard Proctor Test method. This procedure shall be certified by a Professional Engineer (Amend 41).

PD**2-27 PLANNED DEVELOPMENT ZONES****PD****2-27-1 INTENT:**

- (a) PD zoning may be used to foster innovative and diverse design in land development that is still consistent with both the adopted *Comprehensive Plan* and the intent of the *Unified Zoning and Subdivision Ordinances*. To achieve this, the Commission does not apply any other provisions of this chapter or Chapter 4 below. Instead, the Commission -- through its staff -- negotiates a specific development plan with the petitioner for PD zoning and representatives of the checkpoint agencies. The combined elements of this negotiated plan -- rather than zone regulations -- then become the subject of the rezoning process. All restrictions and regulations for a specific Planned Development are thus contained within the approved and recorded plan itself, having been arrived at prior to rezoning. PD zoning may be applied to existing **development** or to open land, on small or large tracts.
- (b) The Commission's goal is to provide a widening variety of environmentally appropriate residential, nonresidential and mixed-use **developments** to meet the needs of this community. To help create attractive, healthful, efficient and stable places to live, shop and work, the Commission encourages use of PD zoning within the following contexts:
 - (1) to accommodate compatible **development** in environmentally sensitive locations;
 - (2) to enhance compatibility with surrounding land **uses**;
 - (3) to permit a harmonious variety of **uses** within a single **development**;
 - (4) to promote efficiency and thus economy by clustering structures and/or by using shared facilities or services;
 - (5) to foster new site treatments not contemplated in other kinds of **zones**.

2-27-2 ORIGATION OF PROPOSALS:

- (a) A request to rezone from any other zoning classification to PD may be initiated by:
 - (1) all owners of the property in question; or
 - (2) any group of owners united in interest, acting jointly in pursuance to an agreement to carry out the proposal in separate ownership.
- (b) Because of the unified design of a planned development and because the combined elements of the negotiated plan are the substance of the **zone** itself, this ordinance requires that a request to reclassify from PD to PD shall include amongst the petitioners either:

PD

PD

- (1) all owners of the property within the current planned development; or
- (2) the owners' association acting on behalf of a majority of property owners in the current planned development, as constituted in the recorded bylaws.
- (c) Also, in keeping with provisions of 5-2-3 below, PD zoning is mandatory for any new **condominium** construction or **condominium** conversion.

2-27-3 CLASSIFICATION OF PLANNED DEVELOPMENTS:

- (a) To identify the nature of planned developments on zoning maps, they shall be classified as one of these four **zones**:
 - (1) **PDRS**, in which all **buildings** and land are developed for residential **use** and those activities customarily accessory to residential **use**;
 - (2) **PDNR**, in which no **buildings** or land are developed for residential **use**, but rather for commercial and/or industrial and/or recreational and/or some other nonresidential **use**;
 - (3) **PDMX**, in which **buildings** and land are developed as a mix of both residential and nonresidential **uses**; and
 - (4) **PDCC**, in which the only change proposed involves either:
 - (A) the conversion to **condominium** ownership of a **development** which has received occupancy permits for all parts no less than three years prior; or
 - (B) the conversion to **condominium** ownership of an existing **building** in a CB or CBW **zone** or in a PD **zone** adjoining or surrounded by a CB or CBW zone;
where there is no further division of land involved.
- (b) Those PD **zones** and overlays approved prior to the adoption of this amendment shall be reclassified as one of the above four zoning categories.

2-27-4 PRE-SUBMISSION CONFERENCE:

- (a) No pre-submission conference is required before submitting a rezoning request to PDCC.
- (b) Before submitting any of the materials required for a rezoning request to either PDRS, PDNR or PDMX, the petitioner shall arrange a meeting with staff and the appropriate **Administrative Officer**, and if outside the corporate limits of Lafayette and West Lafayette, the County Surveyor and Highway Executive Director, or their designees (Amend 15). If outside the service area of sanitary sewer, the County Health Department shall also be notified (Amend 41).

PD**2-27 PLANNED DEVELOPMENT ZONES, cont'd.****PD**

- (c) The petitioner shall bring to this meeting a drawing or sketch of the proposed planned development that:
 - (1) is at least approximately scaled;
 - (2) includes the entire tract;
 - (3) shows, in at least schematic detail, location of proposed **uses** and major **buildings**, layout and classification of **roads**, all entrances and exits, any environmentally sensitive areas;
 - (4) proposes treatment of environmentally sensitive areas;
 - (5) indicates phasing and a time frame for **development**.
- (d) Discussion at this meeting shall include:
 - (1) the intent and requirements of PD zoning;
 - (2) the petitioner's intentions and objectives regarding land **use**, **street** improvements, utilities, the interrelationship of these aspects, and similar matters (Amend 15);
 - (3) the petitioner's intentions assuring compatibility between **uses** proposed for the perimeter of the PD and surrounding land **uses** and zoning classifications;
 - (4) general availability of utilities to the site;
 - (5) the area's current zoning pattern and all elements of the *Comprehensive Plan*;
 - (6) specific materials and documents required in 2-27-5 below to be included with the submission, and a list of checkpoint agencies to be involved;
 - (7) classification of the proposed rezoning as either PDRS, PDNR or PDMX, as per 2-27-3 above; and
 - (8) a proposed schedule for the rezoning process.

2-27-5 FILING REQUIREMENTS FOR A PD REZONING REQUEST WITH DRAFT PLAN:

- (a) After a pre-submission meeting, or to initiate a PDCC action, the petitioner may file a rezoning request to one of the PD classifications. The last working day of each month is the deadline for a petitioner to make a complete submission intended to be heard as a rezoning request no sooner than the Commission's public meeting about 1½ months later.
- (b) This submission shall contain the following:
 - (1) a non-refundable processing fee as set by the Commission;
 - (2) a signed and notarized Petition to Rezone with metes and bounds legal description, indicating the PD classification being sought, signed by the owner or owners of all property involved, or with a notarized Affidavit of Consent of all owners attached;

- (3) a list of names, addresses and auditor's key numbers of all property owners located adjacent to and directly across the street, alley, or railroad **right-of-way** from the property described in 2-27-5-b-2 above;
 - (4) 2 Notices of Public Hearing, each with a metes and bounds or other proper legal description and the common address or location of the property;
 - (5) 2 release letters authorizing the staff to submit Notices of Public Hearings to the designated newspapers;
 - (6) a typed original and 16 copies of the proposed ordinance to rezone the property, using the sample format provided by the staff;
 - (7) 3 sets of drawings, labeled Draft Plan, using the format described in the Commission's publication, *PD Draft and Preliminary Plan Supplemental Guidelines*; to include a published and recorded boundary survey meeting the requirements of *IAC Title 865 Article 1 Rule 12* or its successor, plus a full and detailed site analysis and proposed **site plan**, utilities plan and landscape plan called for in that publication;
 - (8) if dividing land, 3 copies of the preliminary **plat**, prepared by a Registered Land Surveyor in conformance with the requirements of Appendix B-1 below.
 - (9) 3 copies of any proposed covenants and horizontal property ownership and owners' association documents (including amendment provisions that conform to 2-27-14-a through 2-27-14-c below). These shall include a table of contents, and be written in plain language easily understood by most readers; and
 - (10) signatures of all required checkpoint agencies, or post office receipts of certified mailing, indicating receipt of one set each of the items listed as (7) through (9) above.
- (c) Checkpoint agencies to be provided with sets of plans and other documents will have been determined at the pre-submission meeting. They include those agencies having jurisdiction in areas potentially affected by the petitioner's proposed **development**. The list may be drawn from the agencies listed in 2-27-5-c-1 on the following page. For a PDCC rezoning, upon request of the petitioner, the staff will provide a list of checkpoint agencies to be provided with sets of plans and documents (Amend 15).
- (d) If the petitioner fails to meet the filing requirements of 2-27-5 above within 6 months of the pre-submission meeting date, the petitioner shall schedule a new pre-submission meeting, as per 2-27-4, in order to continue the project.

incomplete, the staff shall provide the petitioner with a written statement detailing its deficiencies regarding items in 2-27-5-b above. The last day of that month will then be the next filing deadline for a complete submission.

- (b) At the Required Review Meeting, the staff and checkpoint agency representatives will have an opportunity to recommend revisions to the Draft Plan submission and discuss them with the petitioner and petitioner's representatives. Checkpoint agencies may provide written comments to the **Executive Director** instead of being present.

2-27-7 PRELIMINARY PLAN SUBMISSION REQUIREMENTS:

- (a) Following the Required Review Meeting, the petitioner shall submit a Preliminary Plan no later than the last Wednesday of the month preceding the intended public hearing. A complete Preliminary Plan submission shall contain the following:
 - (1) 8 sets of drawings, labeled Preliminary Plan, containing all the elements of the Draft Plan reflecting changes resulting from the Required Review Meeting;
 - (2) if dividing land, 8 copies of the preliminary **plat**, prepared by a Registered Land Surveyor as per Appendix B-1 below, included within the Preliminary Plans; and
 - (3) 8 copies of any covenants and horizontal property ownership and owners' association documents (including amendment provisions that conform to 2-27-14-a through 2-27-14-c below). These shall include a table of contents, and be written in plain language easily understood by most readers.
- (b) If the petitioner fails to meet the Preliminary Plan submission requirement within 6 months of the date of the Required Review Meeting, his rezoning petition shall be void. If the petitioner wishes to continue with the project, he shall schedule a new pre-submission meeting, as per 2-27-4 above.

2-27-8 PRELIMINARY PLAN HEARING AND DISPOSITION:

- (a) The petition and Preliminary Plan shall then be heard by the Commission as a petition for zoning ordinance amendment, subject to the procedures that apply to such an amendment. Upon hearing the request, the Commission may recommend either approval, amendment, or disapproval of the Preliminary Plan, or may vote no recommendation pursuant to **APC** bylaws.
- (b) The Commission may impose reasonable conditions with its recommendation. These conditions shall only involve the inclusion of additional items unrelated to the project's design. Such items include

PD**2-27 PLANNED DEVELOPMENT ZONES, cont'd.****PD**

being granted additional approval by another governmental agency such as the Drainage Board, or obtaining permission to attach to an existing utility.

- (c) If the Commission requires changes in design, regarding the proposed site, utilities or landscape plans, then the Commission shall vote to recommend amendment. Should this happen, the petitioner may resubmit a second Preliminary Plan, as per 2-27-7 above, for a later rehearing by the Commission.
- (d) If the Commission recommends approval, disapproval or no recommendation, the 8 sets of Preliminary Plans (including drawings, **plats** and covenants) shall be stamped with that recommendation and signed by the President and Secretary of the Commission. The distribution of these sets shall be as follows:
 - (1) 1 set shall be permanently retained in the office of the Commission;
 - (2) 2 sets shall be returned to the petitioner;
 - (3) 4 sets shall be distributed by the staff, with 1 set going to each of the appropriate, gas, electric, telephone and cable television utilities; and
 - (4) 1 set shall be certified to the appropriate legislative body for adoption as a **Planned Development Zone** pursuant to the laws governing zoning ordinance amendments.
- (e) The legislative body may adopt or defeat the certified Preliminary Planned Development, but shall not amend it. If it is adopted by the legislative body, the petitioner may prepare Final Detailed Plans.

2-27-9 APPROVAL OF FINAL DETAILED PLANS FOR PDCC ZONES:

- (a) Following rezoning to PDCC by the legislative body, the petitioner may submit Final Detailed Plans. The petitioner cannot file required **condominium** documents with the County Recorder, until the staff approves these Final Detailed Plans.
- (b) A complete PDCC Final Detailed Plans submission shall contain the following:
 - (1) evidence that any conditions imposed by the Commission at the time of its hearing have been met;
 - (2) a minimum of 8 sets of drawings, labeled Final Detailed Plans -- **Condominium** Conversion, identical in content to the Approved Preliminary Plan (within the context of the imposed conditions), reviewed and signed by the appropriate **Administrative Officer**. The number of sets shall be determined by the staff; and

- (3) a minimum of 8 signed copies of any covenants and horizontal property ownership and owners' association documents (including amendment provisions that conform to 2-27-14-a through 2-27-14-c below). These shall include a table of contents, and be written in plain language easily understood by most readers. The number of copies shall be determined by the staff.
- (c) The staff shall review these Final Detailed Plans within 5 working days of the petitioner's submission. If the staff finds they comply with 2-27-9-b above, the staff shall approve them by attaching a certificate of approval, signed and dated by the **Executive Director**, stating its finding of compliance. If the staff finds them incomplete as per 2-27-9-b above, the staff shall notify the petitioner of the deficiencies. After this certificate is attached, the petitioner shall not submit an alternate or revised set of Final Detailed Plans for the same legal description, except under the circumstance described in 2-27-11-c below.

2-27-10 APPROVAL OF FINAL DETAILED PLANS FOR PDRS, PDNR AND PDMX ZONES:

- (a) Following rezoning to PDRS, PDNR or PDMX, the petitioner may file Final Detailed Plans. The petitioner can neither seek **improvement location permits** nor begin any **development** (including earth moving) activity until the Commission approves these Final Detailed Plans and the petitioner records them (Amend 15). To be complete, Final Detailed Plans shall have already been approved and signed by the appropriate **Administrative Officer**, any applicable sanitary sewer and water provider, public or private; and if outside the Cities of Lafayette and West Lafayette, the Director of the County Highway Department, and the County Surveyor on behalf of the County Drainage Board. Final Detailed Plans may be submitted for the entire project or any part of it.
- (b) A complete PDRS, PDNR or PDMX Final Detailed Plans submission shall contain the following:
 - (1) evidence that any conditions imposed by the Commission at the time of its hearing have been met. If Final Detailed Plans for only part of the project are being submitted, only those conditions bearing on that part need be met;
 - (2) 10 sets of drawings, labeled Final Detailed Plans, consisting of all the elements of the Approved Preliminary Plan, plus full Construction Plans, prepared in conformance with the requirements of Appendix B-2 below, for all public improvements

 - (4) a release from the mortgage company, if any, covering the necessary **right-of-way**, where **right-of-way** is to be dedicated.
 - (5) If one or more lots are being created, the petitioner shall provide 10 copies and a reproducible mylar of the signed final **plat**, prepared by a Registered Land Surveyor in conformance with Appendix B-3 below, with a Planned Development Dedication Certificate appended. The petitioner may either submit this final **plat** along with items (1) through (4) above, or at a later time. In either event, the final **plat** is a part of Final Detailed Plans, and as such, no **improvement location permit** shall be issued until the **plat** is both approved as per 2-27-10-d below, and recorded as per 2-27-11.
- (c) If public improvements or improvements for common usage are to be installed by the petitioner, he or she shall either:
- (1) complete the improvements upon approval of the construction plans portion of the Final Detailed Plans, or
 - (2) ask the Commission's approval at the time the **plat** is approved (whether submitted with construction plans or at a later time), to post bond for these improvements, or submit a certified check, or irrevocable letter of credit or certificate of deposit, as per Appendix B-4 below. No **improvement location permit** shall be issued until surety has been provided (Amend 15).
- Improvements for common usage include landscaping, recreational components and all other facilities either located in common areas or designated for common **use**.
- (d) If the Commission finds the submission of Final Detailed Plans (with final **plat**, or final **plat** alone after previous portions of Final Detailed Plans have been approved) to conform to the Approved Preliminary Plan as adopted by the legislative body at the time of rezoning, the Commission shall adopt a resolution. After this resolution is adopted, the petitioner shall not submit an alternate or revised set of Final Detailed Plans for the same legal description, except under the circumstance described in 2-27-11-c below.

- (f) Adoption of a resolution shall neither constitute nor imply a participating jurisdiction's acceptance of any **street, easement** or park shown in Final Detailed Plans. Acceptance is only that of real property itself. The Commission may require notes to this effect.

2-27-11 RECORDING APPROVED FINAL DETAILED PLANS:

- (a) Before performing any **development**, construction or earth moving activity, or applying for **improvement location permits**, or filing any required **condominium** documents, the petitioner shall record approved Final Detailed Plans in the Office of the County Recorder.
- (b) The staff shall accompany the petitioner in the recording process. Final Detailed Plans shall first be stamped and dated at the County Auditor's office, with one set of plans given the County Auditor. The remaining sets of Final Detailed Plans shall then be stamped, numbered and recorded at the County Recorder's office, and then distributed by the petitioner. The staff shall provide the petitioner a list of agencies to which the petitioner shall distribute sets of approved and recorded plans. The petitioner shall keep at least one set.
- (c) If the petitioner fails to record Final Detailed Plans for all or any part of the entire project within 30 days of the date of their approval, that approval expires. In order to continue, the petitioner then shall resubmit Final Detailed Plans for approval, as per 2-27-9 or 2-27-10 above.
- (d) Any construction that does not fully comply with recorded Final Detailed Plans will be subject to appropriate enforcement action as provided for in 6-3-1 below.

2-27-12 AMENDING RECORDED FINAL DETAILED PLANS:

- (a) A property owner may wish to make changes to a PDRS, PDNR or PDMX project after Final Detailed Plans have been recorded. If these changes are determined to conform to the Approved Preliminary Planned Development as adopted by the legislative body, and to constitute a minor modification only, then the changes shall be recorded as an Amended Final Detailed Plan, as per 2-27-11 above.
 - (1) This written determination of conformance and minor modification shall be made and signed by the appropriate **Administrative Officer**, and attached to each copy of the Amended Final Detailed Plans before recording.

PD**2-27 PLANNED DEVELOPMENT ZONES, cont'd.****PD**

- (2) A minor modification cannot include: any increase in residential **density**; any decrease in residential **density** of 10% or more; any change in **building** dimension or location other than within the defined building envelope; any change in landscaping other than substitution of species or redesign with the same materials; any alteration in the size and/or location of signage; any change in type of land **use**; any change in the alignment or intersection of **streets**; or any change in restrictive covenants, or horizontal property ownership and owners' association documents regarding these items (Amend 15).
- (3) Submission requirements and a timetable for seeking a determination of conformance and minor modification shall be set by each **Administrative Officer**.
- (4) Changes beyond the scope of minor modification require rezoning.
- (b) For any newly constructed **condominium** project or attached **zero-lot-line (ZLL)** project, the property owners shall provide exact measurements locating **buildings** and common **lot lines** after foundations have been put in place. The revised **plat** reflecting exact locations needs to be approved and signed by the appropriate **Administrative Officer** as Amended Final Detailed Plans and recorded as per 2-27-11 above.

2-27-13 LAPSED AND ABANDONED PLANNED DEVELOPMENTS:

- (a) An intended **condominium** conversion has **lapsed** if 2 years have passed since the date on which rezoning to PDCC was granted, and no Final Detailed Plans have been approved and recorded as per 2-27-9 and 2-27-11 above. Following such **lapse**, the Commission shall initiate a petition to rezone the property to its previous classification.
- (b) A planned development has been **abandoned** if 2 years have passed since the date on which rezoning to PDRS, PDNR or PDMX was granted, and no Final Detailed Plans have been approved and recorded for the project or any part or phase of it as per 2-27-10 and 2-27-11 above; or
- (c) Parts or phases of a planned development have been **abandoned** if 10 years have passed since the date on which rezoning to PDRS, PDNR or PDMX was granted, and only Final Detailed Plans for other parts or phases have been approved and recorded as per 2-27-10 and 2-17-11 above.
- (d) An **Administrative Officer** cannot issue an **improvement location permit** for an **abandoned** planned development or an **abandoned** part or phase of a planned development. An **abandoned** planned

development or **abandoned** part or phase shall be rezoned (and if to a PD classification, comply with 2-27-11 above) before the property's owner once more becomes eligible to receive an **improvement location permit** at that location.

- (e) Neither the Commission nor any legislative body shall initiate a petition to rezone any PD-zoned property unless it has either **lapsed** or been **abandoned**.

2-27-14 COVENANTS AND MAINTENANCE:

- (a) To assure property owners that all aspects of a planned development remain in conformance with plans adopted by the legislative body at the time of rezoning, restrictive covenants and any horizontal property ownership and owner's association documents can only be changed through the procedures detailed in 2-27-12 above.
- (b) These changes may be initiated only by a majority of property owners within the planned development. Multiple owners of a single property shall be considered a single owner. The developer shall be considered a single owner until all property is sold.
- (c) The **Administrative Officer** may determine that these changes constitute a minor modification if they meet the requirements of 2-27-12-a-2 above. Changes to these documents which would alter design aspects of the project, or which are determined by the **Administrative Officer** to be beyond the scope of minor modification require rezoning. Covenants and any horizontal property ownership and owner's association documents must reflect the provisions of this section.
- (d) A planned development containing common facilities shall be provided with an owners' association or other private organization responsible to and controlled by the property owners. This organization's purpose is to ensure adequate operation and maintenance of these common facilities, which may include, but are not limited to private **streets**, common areas, landscaping, and amenities such as a clubhouse, pool or tennis courts. Recorded legal assurances shall be provided which show this organization to be self-perpetuating.
- (e) All **streets** and roadways not dedicated to nor accepted by a public agency, and all other common facilities not dedicated to the public, shall be operated and maintained at no expense to any governmental unit.

To ensure limited and appropriate levels of residential *development* in some rural areas in unincorporated Tippecanoe County, without jeopardizing productive farmland and the way of life associated with farming, the following parameters shall be incorporated into any submission seeking rezoning to RE for purposes of developing a *rural estate subdivision*:

- Proposed RE-zoned sites, or FP-zoned portions of *rural estate subdivisions* shall be located no closer than ½-mile, measured radially, from the nearest sanitary sewer having unused capacity, or closer if impeded physically, by a stream or ravine or similar barrier.

RE**2-28 RURAL ESTATE ZONES, cont'd.****RE**

- (b) Petitioner shall demonstrate that more than 50% of the acreage in the **rural estate subdivision** request is either:
 - (1) wooded and untilled,
 - (2) **non-tillable**, or
 - (3) not mechanically harvested for at least 3 of the 5 years between 1997 and 2001,

- (c) 12 single-family residential **lots** shall be the maximum proposed for any **rural estate subdivision**.
- (d) **Lots** created through RE zoning and simultaneous **rural estate subdivision**, shall be a minimum of 1 acre of either RE-zoned land, or 1 acre of RE- and FP-zoned land of which at least 30,000 sq.ft. is zoned RE, exclusive of any outlot containing drainage **easements** and/or **rural estate roads**, and exclusive of any **public street right-of-way**, within a maximum **zone density** of no more than 1 **dwelling unit** per 2 acres within the **rural estate subdivision**.
- (e) Each **lot** shall be accessed only from a **rural estate road** within the proposed RE-zoned site. Petitioner shall demonstrate that any **rural estate road** would be sited to minimize damage to existing trees and topography.
- (f) A **rural estate road** shall be built to the specific standards found in the *Unified Subdivision Ordinance* and below in 2-28-14-g and 2-28-14-h.
- (g) If it is to be held privately by a homeowners' association, the **rural estate road** shall:

All cross section design standards shall be certified by developer's Registered Land Surveyor or Professional Engineer as complying with private **rural estate road** standards. A private **rural estate road** may, on a case-by-case basis, be dedicated and may be accepted for public maintenance at any time if it has been built or subsequently rebuilt to County Highway Department standards current at the time of the request.

- (h) If it is to be a **public street** dedicated and accepted for public maintenance, the **rural estate road** shall:
 - (1) conform to all **subdivision** road standards as per the *Unified Subdivision Ordinance*; or
 - (2) conform to the following public **rural estate road** standards:
 - (A) a rural cross-section in a dedicated 52' minimum **right-of-way**, with 20' of pavement, 4' grassed shoulders, and a drainage easement configured with 3:1 maximum side slopes with a 2' minimum ditch depth; and

- (b) To help determine the appropriateness of the rezoning request, this sketch plan, pursuant to the requirements of the *Unified Subdivision Ordinance*, shall be completed and revised as necessary no less than 12 days before the public hearing on the rezoning request.

3 PERMITTED USE TABLE

3-1 PERMITTED USES

A table of **primary uses** permitted in each kind of **zone** is shown in 3-2 which follows. Only one **primary use building** is permitted per **lot**. Within the jurisdiction of this ordinance, the **use** of land and the **buildings** and **structures** on it, and of any new or **altered buildings** or **structures** on it, shall conform to the listings of this table.

3-1-1 USES PERMITTED BY RIGHT:

A **primary use** is permitted by right in a **zone** when the letter “P” appears in the Permitted **Use** Table at the intersection of the row containing the name of that **use** and the column containing the name of that **zone**. Please note that the permitted use is subject to:

- (a) the off-street auto and bicycle parking requirement referenced in the first column of the row on which the **use** appears;
- (b) any special conditions referenced in the second column of the row on which the **use** appears; and
- (c) any footnotes alongside the name of the use.

Requirements for all off-street parking groups listed in the first column are found in 4-6-3 through 4-6-9 below.

3-1-2 USES PERMITTED BY SPECIAL EXCEPTION:

A **primary use** is permitted by **special exception** in a **zone** when the letter “S” appears in the Permitted **Use** Table at the intersection of the row containing the name of that **use** and the column containing the name of that **zone**. Please note that the permitted **use** must be granted a **special exception** by the **ABZA** as per 6-4-4 below, and is subject to:

- (a) the off-street auto and bicycle parking requirement referenced in the first column of the row on which the **use** appears;
- (b) any special conditions referenced in the second column of the row on which the **use** appears; and
- (c) any footnotes alongside the name of the **use**.

Requirements for all off-street parking groups listed in the first column are found in 4-6-3 through 4-6-9 below.

3-1-3 ACCESSORY USES AND BUILDINGS:

A **use** or **building** which is incidental to, and located on the same premises as a **primary use**, may be permitted as an **accessory use** or **building**. Permitted **accessory uses** and **buildings** are found in 4-1 below. Also if multiple **buildings** on the same premises are engaged in the same **primary use**, all such **buildings** other than the one housing that **use's** managing or operating office, shall be considered **accessory buildings**. Where multiple **primary uses buildings** in single ownership

occupy the same premises and are managed or operated from an office in one of those **buildings**, all such **buildings** other than the one housing the operating or managing office shall be considered **accessory buildings**.

3-1-4 **USES NOT PERMITTED:**

If neither a "P" nor an "S" appears in the Permitted **Use** Table at the intersection of the row containing the name of a **use** and the column containing the name of the **zone**, then that **use** is not permitted in that **zone**.

3-1-5 **PERMITTED USES IN PLANNED DEVELOPMENT ZONES:**

Because **uses** in a PD **zone** are negotiated and included in the **zone** itself, the Permitted **Use** Table in 3-2 below does not apply.

3-1-6 **PERMITTED USE TABLE FORMAT:**

- (a) Except for the section on residential **uses**, the Permitted **Use** Table is organized in conformance with the 1987 *Standard Industrial Classification Manual*, assembled and published by the federal Office of Management and Budget. The *SIC Manual*, hereby included by reference, is thus part of this ordinance which shall not be administered without it.
- (b) In this table, nearly every permitted **primary use** (except for residential **uses**) is assigned an SIC Group number of either 2, 3 or 4 digits. Four-digit groups are more specific than 3-digit groups, which in turn are more specific than 2-digit groups. For purposes of the Permitted **Use** Table, each **use** shall be classified in the most specific SIC Group listed.
- (c) **Uses** not assigned an SIC Group number are shown in quotes, and are defined in 1-10 above.
- (d) The word "except" followed by a colon, found directly under many SIC Group numbers, means that any indented listings of specifically named primary **uses** that follow "except:" shall be considered separately, and not as part of the listing from which they have been excepted.
- (e) For ease of use, some items in the table have been grouped together because of related functions. Thus **trash transfer stations** (which might otherwise be found under SIC 4212), and **junk yards** and scrap and waste material (which might otherwise be found under 5093), have been included below SIC 4953 with other forms of refuse management.
- (f) The major groupings of **uses** within the Permitted **Use** Table are as follows:
 - 3-2-1 Residential **Uses**
 - 3-2-2 Agriculture, Forestry and Fishing
 - 3-2-3 Mining
 - 3-2-4 Construction
 - 3-2-5 Manufacturing
 - 3-2-6 Transportation, Communications, Electric, Gas and Sanitary

- 3-2-7 Wholesale Trade Services
- 3-2-8 Retail Trade
- 3-2-9 Finance, Insurance and Real Estate
- 3-2-10 Services
- 3-2-11 Public Administration

3-1-7 PERMITTED *USE* TABLE ADMINISTRATION:

- (a) **Administrative Officers** shall determine the appropriate SIC Group for a given use by means of the Permitted *Use* Table and the *SIC Manual*. As a further aid, the Alphabetic Index in the *SIC Manual* lists a 4-digit number for virtually all activities.
- (b) The nature of *uses* will be as they are defined in the *SIC Manual*. Exceptions are those permitted **primary uses** listed in the table in quotes. These are defined in 1-10 above.
- (c) Where the name of a permitted **primary use** appears in the *SIC Manual* both as a title next to an SIC Group number and as a listing under that title, the item in the Permitted *Use* Table refers to the group title and all uses listed below it. It does not refer to the one specific listing below the title that shares its name.
- (d) SIC Major Groups 01 and 02 (Agricultural Production --- Crops, and Agricultural Production --- Livestock and Animal Specialties) are meant to identify **primary uses** operated for commercial purposes. The introductory paragraphs in the *SIC Manual* for these 2 groups dealing with classification based on "50 percent or more of the value of sales", are to be disregarded in favor of a measure based on predominant commercial *use* of the land.
- (e) **Primary uses** that are neither listed in the Permitted *Use* Table nor classified in the Alphabetic Index of the *SIC Manual*, may be permitted by an **Administrative Officer** in a **zone** in which similar uses are permitted. The **Administrative Officer** shall find the characteristics of such an unlisted *use* to be:
 - (1) consistent with the purpose and description of the **zone** as per Chapter 2 of this ordinance;
 - (2) compatible with the permitted *uses* in the **zone**; and
 - (3) similar in traffic generation, and noise, vibration, dust, odor, glare and heat producing properties.
- (f) Footnotes appearing in the Permitted *Use* Table are not subject to variance by the **ABZA** or its division. Doing so would create a **use variance**, prohibited by state statute (*I.C. 36-7-4-916 and 918.3*).
- (g) As used in the footnotes to the Permitted *Use* Table, the word "equipment" includes trucks, except all pick-up trucks and any other trucks with a hauling capacity up to one ton.

FOOTNOTES TO 4-2-2:

- 1 Minimum **setbacks** along **street frontages**, whether **front**, **rear** or **side setbacks**, depend on the classification of the **street** which the **setbacks** abut. See abbreviations above for street classifications.
- 2 In **zones** requiring a **rear setback**, that **setback** may be reduced -- but not to less than 3' for a residential **use**, 10' for a nonresidential **use** -- by counting ½ the width of an abutting public **alley** as part of the **setback**.
- 3 See 4-4-1 below on **setback** averaging.
- 4 Except 25' for a **perimeter lot**.
- 5 There can be no **setback** along the designated **zero-lot-line** side. The minimum **setback** along the non-ZLL side is 12', except 17' for a **perimeter lot** outside the **urbanized sewer area**.
- 6 Minimum **rear setback** for a **primary use building** is 10' when abutting an R1Z **zone**; it is 20' abutting any other **zone**. Minimum **side setback** for an **accessory use building** is 6' abutting R1Z, R1U, R2U and R3U **zones**; it is 10' abutting any other **zone**.
- 7 Minimum **side setback** is 30' if the **side lot line** abuts a residential **zone** or **use**.
(Amend 43)
- 8 Minimum **side setback** is 10' if the **side lot line** abuts a residential **zone** or **use**.
- 9 Minimum **rear setback** is 40' if the **rear lot line** abuts a residential **zone** or **use**.
(Amend 43)
- 10 25', measured as per 2-28-7 above. (Amend 27)
- 11 Except for South and/or North River Road, the minimum setback from a road for properties within the **urbanized sewer area** of West Lafayette is 20' or the average **setback** on the **block** face, but never less than 10'. (See 4-4-1 below on setback averaging.) (Amend 37)

4-3 LOT AREA AND LOT WIDTH**4-3-1 LOTS NOT SERVED BY SANITARY SEWER:**

As stated in Footnote 1 to the table in 4-2-1, minimum **lot areas** and **lot widths** shown are only for **primary uses** served by sanitary sewer. Minimum **lot areas** and **lot widths** for **primary uses** not served by sanitary sewer:

- (a) shall be as approved by the Tippecanoe County Health Department (and the Division of Sanitary Engineering, Indiana State Department of Health except for **single-** and **two-family residences**), on a lot-by-lot basis; and
- (b) shall in no case be less than 30,000 sq.ft.

4-3-2 SUBSTANDARD LOTS:

A **single-family dwelling**, or a nonresidential **use** may be located on a **lot** that fails to meet its **zone's** minimum **lot area** and/or **lot width** standards if:

- (a) the use is permitted in the **zone** by right or by **special exception**; and
- (b) the **zone's** **lot coverage**, **setback** and **building height** standards and the **use's** parking and **bufferyard** requirements can still be met; and

- (c) the **lot** is served by sanitary sewer or, within the platted portions of unincorporated Buck Creek, Colburn, Americus, Stockwell, Romney, West Point/Glenhall, Odell and Montmorenci, has been approved for that use by the Tippecanoe County Health Department; and
- (d) The legally created **lot** was either recorded in separate ownership or included in a recorded **subdivision** on or before January 2, 1998, the effective date of this ordinance (Amend 18).

4-3-3 LOT AREA FOR UNIVERSITY-PROXIMATE RESIDENCES IN MULTI-FAMILY DWELLINGS:

UNIT TYPE	LIVING AREA (sq.ft.)	LOT AREA, EACH OF FIRST 3 UNITS (sq.ft.)	LOT AREA, EACH ADDITIONAL UNIT (sq.ft.)
A	825 and over	2000	1000
B	650 - 824	1500	1000
C	470 - 649	1200	750
D	under 470	1000	500
Efficiency	---	800	500

For **university-proximate multi-family** projects containing more than one unit type, the 3 largest units shall be used to calculate "**lot area**, each of first 3 units".

4-3-4 LOTS ON WHICH A RESIDENTIAL USE IS CHANGED:

A **lot** on which a residential **use** is changed by increasing the number of **dwelling units**, shall meet its **zone's lot area** and **lot width** requirements for the higher number of units.

4-4 SETBACKS

4-4-1 AVERAGING SETBACKS ALONG STREET FRONTAGES:

For a **primary use building**, the minimum **setback** along a **street frontage** is reduced to the average **setback** of the existing **primary use buildings** on that **block** face (but never less than 10') if:

- (a) the frontage is along any **street** in an R1U, R2U or R3U **zone**, or along any **local street** in any other **zone** requiring a **setback** along a **street frontage**, or along any **street** in an R3W or R4W zone (except North and South River Road) located within the **urbanized sewer area** of West Lafayette (Amend 37); and
- (b) at least half the **lots** in that **block** face are already occupied by **primary use buildings**.

Any **primary use building** being removed to make way for a new **primary use building** cannot be included when calculating average **setback** along a **street frontage** for that new **building**.

4-4-2 SETBACKS FOR MULTIPLE-FRONTAGE AND NON-FRONTAGE LOTS:

- (a) A **corner lot** has just one **front setback** and one **front lot line**, as defined in 1-10.
- (b) A **through lot** has just one **front setback** marked by one **front lot line**, as defined in 1-10, if the two abutting **streets** are classified differently in the street classification system. Unless deed restrictions specify otherwise, the **lot line** abutting the **street** classified *lower* in the street classification system shall be designated the **front lot line**; it marks the **front setback**. The **lot line** abutting the *higher* classified **street** shall be designated the **rear lot line**; it marks the **rear setback**. The street classification hierarchy from lowest to highest is: **place, local street, collector street, secondary arterial, primary arterial**.
- (c) A **through lot** has two **front setbacks** marked by two **front lot lines**, as defined in 1-10, if both **streets** it abuts are classified *the same* in the street classification system.
- (d) For a lot without **street frontage**, the minimum **front setback** is 25', measured from a **lot line** designated as the **front lot line**.

4-4-3 LOCATIONS WITH SPECIAL SETBACKS:

- (a) The **setback** for **primary use** and **accessory buildings** from the **right-of-way** of North River Road (SR43 north of the Harrison Bridge) is 100':
 - (1) from the south **right-of-way line** of I-65 to 550' south of the south **right-of-way line** of Columbia Street,
 - (2) except for those **lots** also having a second **frontage** on Dehart and Robinson Streets.
- (b) The **setback** from rivers, streams and other bodies of water for **primary use** and **accessory buildings** is 25', measured horizontally from the **Flood Plain zone** boundary and certified by a Registered Land Surveyor. This **setback** applies to all new construction begun after the adoption of this section, other than attached additions to existing structures either built in compliance with an **improvement location permit**, or built before 1965.

4-4-4 SETBACKS FOR PORCHES, DECKS AND PATIOS (Amends 16, 16A):

- (a) If roofed and not attached to a **primary use building**, a porch, deck or patio is an **accessory building**; it shall observe all minimum **setbacks** for **accessory uses, structures and buildings** prescribed in the table in 4-2-2 above.
- (b) If roofed and attached to a **primary use building**, a porch, deck or patio is part of that **primary use building** and not an **accessory building**; it shall observe the minimum **setbacks** for **primary use buildings** prescribed in the table in 4-2-2 above.
- (c) Whether attached to a **primary use building** or not, an unroofed porch, deck or patio is an **accessory structure**; it may extend into a minimum **rear** or **side** (but not **front**) **setback** to within 4' of a **lot line** if:

- (1) its floor within the **setback** is no higher than the lowest floor of the **primary use building**; and
- (2) it is not enclosed higher than 3½' above that floor.

4-4-5 SETBACKS FOR STRUCTURAL PROJECTIONS AND STOOPS:

- (a) The following **structural projections** may extend up to 2' into a minimum **front, rear** or **side setback**: eaves, overhangs, chimneys, bay windows, greenhouse windows and window-mounted or wall-mounted air conditioners.
- (b) Balconies are **structural projections** that may extend up to 4' into a minimum **rear setback**, but not at all into a minimum **front** or **side setback**.
- (c) **Stoops** may extend up to 4' into a minimum **front, rear** or **side setback**.

4-4-6 SETBACKS FOR PARKING:

- (a) Except in 4-4-6-b through 4-4-6-d below, required parking is not permitted in the **front setback** of any residential **use**, or any residential **zone** (Amend 8). Optional parking is also not permitted in the **front setback** of any residential **use**, except in driveways and turnarounds.
- (b) A **single-family dwelling** may have one of its 2 required **parking spaces** in a driveway or turnaround in its **front setback** (but not under roof) if:
 - (1) its **lot area** and **lot width** do not exceed the minimums for R1B **zones**; or
 - (2) the **lot** on which it is situated meets all requirements of 4-3-2 above.
- (c) Required parking is permitted in the **front setback** in any **residential** or RE **zone** when it is used as a drop-off for a **child care home** on that same **lot** (Amend 27).
- (d) Required parking is permitted in the **front setback** in any **zone** when it accommodates a **home occupation** within a **dwelling** on that same **lot**.
- (e) Neither required nor optional parking is permitted in any **no-parking setback**. Except where crossed by driveways, a **no-parking setback** cannot be covered with **impervious surface**, and is subject to landscape requirements of the jurisdiction in which it is located. Regarding the **development** of **multi-family dwellings**, the **no parking setback** pertains only to the perimeter of the **development**, and not to any internal **lot lines** (Amend 5).
- (f) No **parking space** shall be located between a **building** and the **right-of-way line** of any adjoining **street** in NBU, CB or CBW **zones**, except at sites surrounded on all sides by **streets**.
- (g) For all permitted **uses** other than **single-** and **two-family dwellings**, **parking spaces** may be located in a required **front setback** in NB, OR, MR, GB, HB, I1, I2 and I3 **zones**. However, these **parking spaces** cannot be placed within any **no-parking setback**, 4-4-6-e above, nor any **vision setback**, 4-4-7 below.

4-4-7 VISION SETBACKS:

- (a) A **vision setback** shall be provided for all **lots** located at **street** intersections in all **zones** (Amend 8). This triangular **vision setback** is measured along the curbs of the 2 intersecting **streets**, or the edge of their pavements if there are no curbs. The distance from the corner of the intersection shall be 40' in each direction; a diagonal connecting those two 40' line segments closes the triangle.
- (b) A **vision setback** shall also be provided for all **lots** located at **alley/street** intersections in all **zones** except CB, CBW and NBU. This triangular **vision setback** is measured along the curb of the intersecting **street** (or pavement edge if there is no curb) and the pavement edge of the intersecting **alley**. The distance from the corner of the intersection shall be 20' in each direction; a diagonal connecting those two 20' line segments closes the triangle.
- (c) A **vision setback** shall also be provided for both sides of driveway/**street** intersections in all **zones**, for all **primary uses** required to provide 5 or more **parking spaces**. This triangular **vision setback** is measured along the curb of the intersecting **street** (or pavement edge if there is no curb) and the pavement edge of the intersecting driveway. The distance from the corner of the intersection shall be 20' in each direction; a diagonal connecting those two 20' line segments closes the triangle.

4-4-8 SETBACKS FOR OPEN USES:

- (a) The minimum **setback** for any **open use**, other than those listed in 4-4-8-a-1 below, is 5' from the **front lot line**, plus 5' from any **side** or **rear lot line** abutting a **street** or a **residential** or RE **zone** (Amend 27). Except where crossed by driveways, an **open use setback** cannot be covered with **impervious surface**, and is subject to landscape requirements of the jurisdiction in which it is located. Any **building** associated with an **open use** shall observe the **setbacks** summarized in the table in 4-2-2.

4-4-9 CONFINED FEEDING OPERATION SETBACKS:

- (a) Because of the potential for negative impacts, a **confined feeding operation** constructed after the effective date of this ordinance shall be separated from some surrounding **uses, zones** and elements of the built and natural environment by a **confined feeding operation setback**. This

separation, listed in 4-4-9-a-1 below, shall be measured from that **use** to the enclosure which defines the **confined feeding operation**. (Amend 2)

- (b) In the presence of an existing **confined feeding operation**, a new **dwelling** (other than that of an on-site owner or caretaker), new school, new church or other place of public assembly shall not be built within 1000' of that **confined feeding operation**, measured from that **primary use building** to the enclosure which defines the **confined feeding operation**.
- (c) Expansion of a **confined feeding operation** which otherwise existed at the time this ordinance became effective or was amended shall still comply with **Flood Plain (FP) zone, street/arterial**, water well, stream, ditch or other body of water, and **residential zone setbacks** as set forth in 4-4-9-a-1 above. (Amend 2)

4-4-10 SETBACKS FOR GASOLINE SERVICE STATION CANOPIES: (Amend 23B)

Whether attached or freestanding, the leading edge of a **gasoline service station canopy** shall be set at least 10' back from the edge of any **right-of-way**.

4-4-12 SETBACKS FOR WINERIES (Amend 43)

A **winery** located in A, AA, and AW zones shall be subject to the **setbacks** for uses in GB zones. Unroofed outdoor tasting decks and patios are also subject to all setback requirements.

4-5 HEIGHT

This provides additional traffic lanes for major **streets**, provides more traffic capacity on major **streets**, allows faster emergency access, and allows narrower local streets to be

designed within **subdivisions**. Secondary purposes include: minimizing development problems with neighboring **uses**; providing for special parking needs for individuals with disabilities and bicyclists; providing adequate parking for all **uses**; and, allowing flexibility in meeting the community's parking needs.

4-6-2 REQUIRED PARKING SPACES:

- (a) **(LAFAYETTE, WEST LAFAYETTE, DAYTON, BATTLE GROUND, CLARKS HILL)** The following 7 tables indicate the minimum number of on-site **parking spaces** that shall be provided for residents, guests, employees and customers. The tables in 4-6-3 and 4-6-7 correspond to the parking group numbers and letters that appear in the first column next to every use in the Permitted Use Table (3-2 above). A parking group number alone is a reference to 4-6-3, automobile parking. A parking group number followed by a slash and a parking group letter, is a reference to first 4-6-3, automobile parking, and then 4-6-7, bicycle parking. Note that for West Lafayette's **university-proximate residences**, the table in 4-6-4 supersedes 4-6-3, and the table in 4-6-8 supersedes 4-6-7. For **integrated centers** having **gross leasable areas** of at least 50,000 sq.ft., the table in 4-6-5 supersedes 4-6-3, and the table in 4-6-9 supersedes 4-6-7. The table in 4-6-6 provides requirements for **parking spaces** that are **accessible** to individuals with disabilities.
- (a) **(TIPPECANOE COUNTY)** Tables 4-6-3 through 4-6-6 indicate the minimum number of on-site **parking spaces** that shall be provided for residents, guests, employees and customers. The table in 4-6-3 corresponds to the parking group numbers that appear in the first column next to every use in the Permitted Use Table (3-2 above). Note that for **integrated centers** having **gross leasable areas** of at least 50,000 sq.ft., the table in 4-6-5 supersedes 4-6-3. The table in 4-6-6 provides requirements for **parking spaces** that are **accessible** to individuals with disabilities.

- (a) Where a **lot** holds one or more **buildings** predating the effective date of this ordinance, and a change in permitted **use** that would not enlarge the **building** is proposed, then the number of **parking spaces** required in 4-6-3 through 4-6-9 above shall be provided for the new **use**.
- (b) Where an existing **use** is expanded, or an existing **building** is **enlarged**, the number of **parking spaces** required in 4-6-3 through 4-6-9 above shall be provided for the expanded or **enlarged** portion only.  - (2) the **lot** on which it is situated meets all requirements of 4-3-2 above.
- (c) Required parking is permitted in the **front setback** in any **residential zone** when it is used as a drop-off for a **child care home** on that same **lot**.

However, these **parking spaces** cannot be placed within any **no-parking setback**, 4-6-14-e above, nor any **vision setback**, 4-4-7 above.

4-6-15 AUTO PARKING SPACE AND PARKING AREA DESIGN STANDARDS:

- (a) All auto **parking spaces**, **maneuvering spaces** and **maneuvering aisles** shall be paved, except in A, AA, AW, FP and RE **zones** (Amend 27) and on **farms** in any **zone**, where paving is optional. (However, **mobile home parks** in A zones shall also have paved auto **parking spaces**, **maneuvering spaces** and **maneuvering aisles**.) Paving shall be either bituminous pavement or portland cement concrete, or an alternative dustfree, durable and cohesive surface such as paving blocks or brick. Such alternative surface shall not be hazardous to pedestrians and shall be traversable by individuals with disabilities. Parking surfaces shall be kept in good condition (free from potholes, etc.) by the owner of the land.
- (b) For all **primary uses** other than **single-** and **two-family dwellings** (including any **home occupation** authorized therein), auto **parking space** width and length, **maneuvering aisle** width and parking angle shall be measured as per the diagram in Appendix C.
- (c) The dimensional requirements for auto **parking spaces** are as follows:

- (1) Each off-street auto **parking space** required in 4-6-3 through 4-6-5 above shall consist of a rectangular area no less than 9' wide and 18' long, except 8' wide and 22' long for each parallel (0°) **parking space**.
- (2) For all permitted **uses** other than **single-** and **two-family dwellings** (including any **home occupation** authorized therein), each paved auto **parking space** shall be delineated by striping or other means acceptable to the **Administrative Officer**. **Parking space** striping shall be kept clearly visible and distinct.
- (3) **Accessible parking spaces** shall be at least 8' wide and 18' long, and shall have an adjacent **access aisle** at least 5' wide. "Van accessible" **parking spaces** shall be served by an **access aisle** at least 8' wide. These **access aisles** shall be part of an **accessible route** to the **building** or facility entrance. Two **accessible parking spaces** may share a common **access aisle**. An alternative to the provision of a percentage of spaces with 8'-wide **access aisles**, and the associated requirement in 4-6-6-b above to include additional **signage**, is the allowance of "universal" **parking space** design. Under this design, **all accessible parking spaces** are 11 feet wide and 18' long with a 5 foot **access aisle**.
- (d) For all permitted **uses** other than **single-** and **two-family dwellings** (including any **home occupation** authorized therein):
 - (1) Each required off-street auto **parking space** shall open directly on an unobstructed **maneuvering aisle**, the width of which is determined by the **parking angle** (measured between the centerline of the **maneuvering aisle** and the centerline of the **parking space**), as shown in 4-6-15-d-2.

4-6-15-d-2 AUTO PARKING AREA DIMENSIONAL REQUIREMENTS:

PARKING ANGLE	ONE-WAY MANEUVERING AISLE WIDTH	TWO-WAY MANEUVERING AISLE WIDTH
76° -- 90°	22'	22'
61° -- 75°	18'	22'
46° -- 60°	17'	22'
0° -- 45°	12'	22'
A paved alley abutting auto parking spaces may be counted toward the required maneuvering aisle width.		

- (1) Driveways shall be arranged for the free flow of vehicles at all times. All **maneuvering spaces** and **maneuvering aisles** shall be designed so that all vehicles can exit from and enter onto a **public street** by being driven forward.

- (e) Plans for driveway improvements within public **right-of-way** are subject to the approval of the applicable local unit of government, or the Indiana Department of Transportation if along a State or Federal roadway.
- (f) Wheel stops, low walls, or other physical barriers shall be provided for all **parking area** boundaries (except at points of ingress and egress), so that parked vehicles do not extend into adjacent properties, **no-parking setbacks** or public **rights-of-way**. These barriers shall not reduce the clear width of an **accessible route** for individuals with disabilities. **Parking areas** shall be designed so that maneuvering vehicles do not extend over sidewalks or bump against or damage walls, vegetation, or other obstructions.
- (g) "Van accessible" and "universal" **parking spaces** shall provide a minimum vertical clearance of 98" at the **parking space** and along at least one vehicle **access route** to such **parking spaces** from **parking area** entrance(s) and exit(s).
- (h) Lighting requirements and restrictions for auto **parking areas** are intended to promote nighttime security while minimizing negative impacts. No **parking area** lighting shall be so intense or brilliant as to impair the vision of drivers, pedestrians or employees, or disturb the daily activities of adjoining or neighboring residents. These requirements and restrictions are as follows:
 - (1) Lighting used to illuminate an auto **parking area** shall be shielded, placed or otherwise designed to direct light toward the **parking area** surface, and away from adjacent **residences** and **public streets**.
 - (2) The outdoor **parking area** associated with a **multi-family dwelling** shall be illuminated from 30 minutes after sunset until 30 minutes before sunrise (Amend 13).
 - (3) If open after sunset, the outdoor **parking area** associated with any other **use** shall be illuminated from 30 minutes after sunset until 30 minutes after closing, or until 30 minutes before sunrise if the **use** operates all night (Amend 13).
 - (4) (Amend 13)

4-6-16 (LAFAYETTE, WEST LAFAYETTE, DAYTON, BATTLE GROUND, CLARKS HILL) BICYCLE PARKING DESIGN STANDARDS:

- (a) The bicycle **parking spaces** required by 4-6-7 through 4-6-9 shall consist of racks or other stationary objects approved by the **Administrative Officer**, to which bicycles can be locked by securing the frame and at least one wheel. Such a facility must be usable with both U-locks and cable locks. These types of facilities may be substituted:
 - (1) lockers, which consist of fully enclosed **parking spaces** accessible only to bicycle users;

- (2) a check-in parking system, where bicycles are delivered to and left with an attendant with provision for identifying bicycle users; stored bicycles are accessible only to the attendant;
 - (3) monitored parking, which provides facilities within an area under constant surveillance; and
 - (4) restricted access parking, which provides facilities within a locked room or enclosure accessible only to users of bicycles parked inside.
- (b) Bicycle parking facilities shall provide at least 2' of clearance on one side of each bicycle to permit users to lock bicycles to the facility. This space may be shared by adjacent bicycles.
 - (c) Except in parallel parking situations, each bicycle space shall open directly on an unobstructed **maneuvering aisle** at least 3' wide.
 - (d) Parking facilities shall support bicycles in a stable position.
 - (e) Bicycle parking shall be situated at least as conveniently as the most convenient auto **parking area**. Bicycle and auto **parking areas** shall be separated by a physical barrier or sufficient distance to protect parked bicycles from damage from cars.
 - (f) All bicycle **parking spaces** and **maneuvering aisles** shall be paved, except in A, AA, AW, and FP **zones** and on **farms** in any **zone**, where paving is optional. Paving shall be either bituminous pavement or portland cement concrete, or an alternative dustfree, durable and cohesive surface such as paving blocks or brick. Such alternative surface shall not be hazardous to pedestrians and shall be traversable by individuals with disabilities. Parking surfaces shall be kept in good condition (free from potholes, etc.) by the owner of the land.
 - (g) Where a bicycle **parking area** is not clearly visible to approaching riders, **incidental signs** shall indicate the facility's location.

4-6-17 BICYCLE PARKING FOR PRE-EXISTING USES:

Primary uses which predate the adoption of this section may convert one auto **parking space** to bicycle parking upon approval of the **Administrative Officer**. These converted bicycle **parking spaces** shall conform to the design standards of 4-6-16 above.

4-6-18 OFF-STREET LOADING:

- (a) The **Administrative Officer** shall determine the need for **loading berths** to be provided for newly erected or substantially **altered buildings** which receive or distribute materials or merchandise by truck, up to the maximums shown in 4-6-18-a-1 below.

4-6-18-a-1 **MAXIMUM LOADING BERTH REQUIREMENTS:**

SQUARE FEET OF GROSS FLOOR AREA	MAXIMUM NUMBER OF OFF-STREET LOADING BERTHS REQUIRED
0 -- 10,000	1
10,001 -- 40,000	2
40,001 -- 80,000	3
80,001 -- 120,000	4
120,001 -- 160,000	5
160,000+	5 + 1 for up to each 80,000 over 160,000

- (b) Unless certified by the **Administrative Officer** under 4-6-18-c below, required off-street **loading berths** shall be located on the same **lot** as the **use** to be served. No portion of any vehicle using the **loading berth** shall project into a **street** or **alley**. No permitted or required **loading berth** shall be located within 25' of the nearest **street** intersection, nor shall it be located in a required **front**, **side** or **no-parking setback** adjoining a **street**.
- (c) In NBU, CB, and CBW **zones**, the **Administrative Officer** may certify that there is a designated **street** or **alley** loading zone within 130' of the **development**. In that case, no off-street **loading berth** need be provided. However, if no off-street **loading berth** is provided, all pick-ups and deliveries shall be made using the certified **street** or **alley** loading zone.
- (d) Except in CB and CBW **zones** where this subsection does not apply, the **Administrative Officer** shall determine how off-street **loading berths** are to be screened from adjacent **residential zones** or **uses**, employing one or more of the following means:
- (1) a dense planting of evergreen plant materials which attain a mature height of at least 6'; or
 - (2) an opaque 6' fence; or
 - (3) landscaped earth **berms**.
- (e) The **Administrative Officer** shall determine the appropriate dimensions for required off-street **loading berths** up to the following maximums:
- (1) off-street **loading berths** designed for tractor-trailers, no more than: 14' wide by 60' long; maneuvering apron of 60' (giving a total depth of 120'); and vertical clearance of 15'; and
 - (2) off-street **loading berths** designed for single-unit trucks, no more than: 12' wide by 30' long; maneuvering apron of 30' (giving a total depth of 60'); and vertical clearance of 12'.
- (f) The **Administrative Officer** shall determine the appropriate mix of required **loading berths** for tractor-trailers and single-unit trucks.

- (g) Off-street **loading berths** shall be designed with appropriate vehicular access to a **street** or **alley**, and in a way which will least interfere with other traffic movements.
- (h) Off-street **loading berths** and maneuvering aprons shall be paved, except in A, AA, AW, and FP **zones**, where paving is optional. Paving shall be either bituminous pavement or portland cement concrete, or an alternative dustfree, durable and cohesive surface such as paving blocks or brick.
- (i) Spaces allocated for use as off-street **loading berths** shall not be used to satisfy any off-street parking requirement.
- (j) Except when located at a **loading berth**, semi-trailers, with or without wheels, or other containers, shall not be parked at retail establishments in **commercial zones**, unless they are attached to semi-tractors (Amends 8, 13.)

4-7 ENTRANCES

- (a) The number, location, placement, separation and design of entrances connecting permitted **uses** to all **public streets** is as determined on a case-by-case basis by:
 - (1) the City Engineers of the Cities of Lafayette and West Lafayette;
 - (2) the County Highway Department Executive Director for unincorporated Tippecanoe County;
 - (3) the **APC Executive Director** for the Towns of Dayton, Battle Ground and Clarks Hill; and
 - (4) the Indiana Department of Transportation for state highways;unless their jurisdiction over entrances has been specifically set aside by recorded plat, or by document recorded by a governmental agency.
- (b) The appropriate jurisdiction shall approve the request for such entrances (and issue a driveway permit if that is its procedure), prior to issuing any **improvement location permit** under 6-2 below for the proposed activity.

4-8 SIGNS

4-8-1 INTENT:

- (h) A **sign** may be erected, placed, established, painted, created, or maintained only in conformance with the standards, procedures, exemptions, and other requirements of this section.
- (i) These **sign** regulations are intended to:
 - (1) encourage the effective use of **signs** as a means of communication;
 - (2) maintain and enhance the community's ability to attract sources of economic development and growth;
 - (3) improve pedestrian and traffic safety;

- (4) minimize the possible adverse effect of **signs** on nearby public and private property;
- (5) enable the fair and consistent enforcement of these **sign** restrictions;
- (6) establish a permit system to allow a variety of types of **signs** in **commercial** and **industrial zones**, and a limited variety of **signs** in other **zones**, subject to the standards and the permit procedures of this section;
- (7) allow certain **signs** that are small, unobtrusive, and incidental to the **primary use** of the respective **lots** on which they are located, subject to the substantive requirements of this section, but without a requirement for permits; and
- (8) prohibit all **signs** not expressly permitted by this section.

4-8-2 COMPUTATIONS:

The following principles control the computation of **sign** area and **sign setback**:

- (a) The area of a **sign** face (which is also the **sign** area of a **wall sign** or other **sign** with only one face) is computed as the smallest square, circle, rectangle, or triangle that will encompass the extreme limits of the entire message, together with any material or color forming an integral part of the background of the display or used to differentiate the **sign** from the backdrop or **structure** against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when that fence or wall otherwise meets ordinance regulations and is clearly incidental to the display itself.
- (b) The **sign** area for a **sign** with more than one face is computed by adding together the area of all **sign** faces visible from any one point. Where 2 identical **sign** faces are placed back to back, so that both faces cannot be viewed from any one point at the same time, and where such **sign** faces are part of the same **sign** structure and are not farther apart than half the length of the **sign**, the **sign** area is computed by the measurement of one of the faces. (Amend 20)
- (c) The permitted sum of the area of all individual **signs** on a **sign-lot** is computed as per 4-8-3-b for the **zone** in which the **lot** is located. For **lots** fronting on 2 or more **streets**, the area of all individual **signs** permitted on each **frontage** is computed separately for each **frontage**, but the total is applicable throughout the **sign-lot**.
- (d) The **setback** of any **freestanding sign** shall be measured from the edge of the **right-of-way** to the leading edge of that **sign**. It shall never be measured to the pole supporting that **sign** unless the pole is located at the leading edge.
- (e) In situations where **uses** are constructed beyond a public or private frontage **road** that runs approximately parallel to a **primary** or **secondary arterial**, all measurements of **setbacks**, **road** speed, etc. that are

required in the following tables shall pertain to the **primary** or **secondary arterial** not the frontage **road**.

4-8-3 SIGNS ALLOWED ON PRIVATE PROPERTY WITH AND WITHOUT PERMITS:

- (a) **Signs** are allowed on private property, only in accordance with the table in 4-8-4, and within the further requirements of 4-8-3-b below. In 4-8-4, where the letter "A" appears at the intersection of a row containing the name of a **sign** type and the column containing the name of a **zone**, that **sign** type is allowed in that **zone** without a permit. Where the letter "P" appears for a **sign** type in a row, that **sign** type is allowed in the **zone** represented by the intersecting column, but only with prior approval of a **sign** permit; special conditions may apply in some cases. Where the letter "N" appears for a **sign** type in a row, that **sign** type is not allowed in the **zone** represented by the intersecting column under any circumstances.
- (b) **Signs** designated in 4-8-4 by an "A" or a "P" are then allowed, but only if:
 - (1) the sum of the area of all **building** and **freestanding signs** on the **sign-lot** conforms to the maximum permitted **sign** area as determined for the **zone** in which the **lot** is located, as specified in the table in 4-8-5;
 - (2) the number, area, size and **setback** of **signs** on the **sign-lot** conform to the requirements of the table in 4-8-6 which establishes permitted **sign** dimensions for **freestanding signs**. **Setback** is always measured from the edge of the **right-of-way** to the leading edge of the **sign**;
 - (3) the maximum permitted **building sign** area for **primary uses** within **integrated centers** is 5 sq.ft of **signage** per 1,000 sq.ft of floor area, with a minimum **building sign** area of 40 sq.ft. up to a maximum of 400 sq.ft.; (Amend 20)
 - (4) the sum of the area of all **integrated center signs** conforms to the requirements of the tables in 4-8-7-b. **Setback** is always measured from the edge of the **right-of-way** to the leading edge of the **sign**; and (Amend 20)
 - (5) characteristics of the **signs** conform with the requirements of the table in 4-8-8. (Amend 20)
- (c) **Outdoor advertising signs** are the subject of 4-8-10 below. They are subject to the requirements of 4-8-4 below, but not to those in 4-8-5 through 4-8-8.
- (d) **Rural outdoor signs** are the subject of 4-8-12 below. Other than the provisions of 4-8-2(a) and (b), 4-8-4, 4-8-12, and 4-8-15 the provisions of 4-8-2 through 4-8-18 do not apply to **rural outdoor signs** (Amend 29).
- (e) **Gateway signs** are subject to the requirements of 4-8-4 and 4-8-15 below and 4-4-7 above, but not to 4-8-5 or 4-8-6. No more than two signs are permitted at any one entrance, and shall be located within either a sign or landscape easement, or a platted outlot. (Amend 40)

4-8-4 PERMITTED SIGNS BY TYPE AND ZONE:

Any **primary use** with a street-level entrance may display a **building sign** up to 1 sq.ft. in area indicating its address, and if a **residence**, the occupant's name. Permission for additional **signage** is based on the following :

4-8-5 MAXIMUM SIGN AREA PER SIGN-LOT, BY ZONE: (Amend 20)

The maximum total **sign** area for a **sign-lot** (except for **building marker signs, gateway signs, incidental signs, flags** and **event oriented signs** which are exempt from this section), is calculated using the following table. It is determined for each **street frontage** along a private or public **road** by multiplying the appropriate **zonal base rate** by the **road** speed limit factor, the **building setback** factor, and the percent of permitted **freestanding sign** area used. A **sign-lot's** maximum total **sign** area is then the calculated sum of the **sign** areas for all **street frontages**, unless that sum falls below the **sign area assurance** or above the **sign area cap** noted on the following page. Except as indicated in 4-8-6 below regarding **freestanding signs**, the total **sign** area may be applied at any location on a **sign-lot**. See 4-8-7 below for maximum **sign** area for **primary uses** within **integrated centers** and for **integrated center signs**. Notes follow on the next page. A worksheet can be found in Appendix D.

SIGN AREA ASSURANCE = the **zonal base rate**, except for:

- (1) **primary use buildings** with more than 15000 sq.ft. of **ground floor area** in NBU and MR **zones**; and
- (2) **primary use buildings** with more than 20000 sq.ft. of **ground floor area** in all other **commercial** and **industrial zones**, where it equals 0.2% of the **ground floor area** of the **primary use building**.

SIGN AREA CAP = 6% of the **ground floor area** of the **primary use building** in situations where the calculated maximum **sign** area per **sign-lot** exceeds 6% of the **ground floor area** of the **primary use building**.

FOOTNOTES TO 4-8-5:

- 1 This is the legal speed limit along the full length of a **sign-lot's street frontage**. Where a **sign-lot** has no actual **street frontage**, this is the legal speed limit of the adjoining **road** from which the **primary use** derives vehicular access, at that access point. Where a **sign-lot** fronts on a public or private frontage road, the speed limit of the thoroughfare pertains, not that of the frontage road. In an HB **zone**, where a **sign-lot** is located within 400' of a **primary arterial**, fronts on and derives its only access from a **local road** which in turn derives its access from a **primary arterial**, then the speed limit of the **primary arterial** – where the local road intersects -- pertains. Where the legal speed limit changes along the length of a **sign-lot's street frontage** (or between access points for **sign-lots** having no **street frontage**), **road** speed limit is the greater of the speed limits along the length of the **street frontage** (or at the number of access points if there is no **street frontage**). **Frontage** along I-65 is not counted in this calculation. If the legal speed limit is increased after **signage** has been installed, maximum **sign** area may be increased accordingly. If the speed limit is decreased, no decrease in **signage** is required. Where a temporary speed limit has been posted during a period of construction, the legal speed limit prior to that period will be used for this calculation. (Amend 20)

4-8-7 SIGNAGE FOR INTEGRATED CENTERS:

- (a) The maximum permitted **building sign** area for **primary uses** within **integrated centers** is based on 5 sq.ft of **signage** per 1,000 sq.ft. of floor area, with a minimum **building sign** area of 40 square feet up to a maximum of 400 square feet. (Amend 20)

4-8-7-b MAXIMUM TOTAL SIGN AREA FOR INTEGRATED CENTER SIGNS: (Amend 20)

The maximum total sign area for **integrated center signs** is calculated using the following table. It is determined for each public **street frontage** by multiplying the appropriate **zonal base rate** by the **integrated center ground floor area** factor and the **road** speed limit factor. An **integrated center's** maximum total **sign** area is then the calculated sum of the **sign** areas for all public **street frontages**. The total **sign** area may be applied at any location at the **integrated center**. **Freestanding integrated center signs** shall observe the maximum height and minimum **setback** standards in 4-8-6 above.

4-8-9 EVENT ORIENTED SIGNS: (Amend 8)

These are **freestanding signs**, intended to commemorate a special event or sporting event, or to notify potential customers of a new business or sale. They are meant to be decorative and festive. Because they are not permanent in nature, but rather augment permanent **signage** on a **sign-lot**, they are subject only to the requirements of 4-8-4 above, and not 4-8-5 through 4-8-8. Thus they do not count against a **sign-lot's** permitted maximum **sign** area.

- (a) **Event oriented signs** shall be permitted only on the premises where the special event is happening.
- (b) These **signs**, where allowed in 4-8-4 above, shall not be placed on a premises in a **commercial, industrial** or **rural zone**, nor at an institutional **use** (SIC 801-972) in a **residential zone**, for more than 21 days within a 90 day period (Amend 5), no more than 4 times per year. (Amend 20)
- (c) These **signs**, where allowed in 4-8-4 above, shall not be placed on a premises, other than an institutional **use** in a **residential zone**, for more than 3 days within a 90 day period, no more than 4 times per year. (Amnd 20)
- (d) These **signs**, where allowed in 4-8-4 above, shall not be located either within the **right-of-way** of any **public street**, or in the **vision triangle** formed by the intersection of **streets, alleys** or driveways.
- (e) **Event oriented signs** consist of the following:
 - (1) **portable signs**;
 - (2) **beacons**;
 - (3) **pennants**;
 - (4) strings of lights not permanently mounted to a rigid background;
 - (5) inflatable **signs** and tethered or portable balloons; and
 - (6) **banners** (Amend 5, 18).
- (f) **Event oriented signs** shall incorporate no lights or arrows resembling traffic control **signs** or signals that confuse or interfere with the safe flow of traffic.

4-8-10 OUTDOOR ADVERTISING SIGNS:

Outdoor advertising signs, often called billboards, are permitted in GB, I1, I2 and I3 **zones** (TIPPECANOE COUNTY, LAFAYETTE, BATTLE GROUND, CLARKS HILL, DAYTON) and I2 and I3 **zones** (WEST LAFAYETTE), as per 4-8-4 above. (Amend 4) They are not subject to the requirements of 4-8-5 through 4-8-8. However, they are subject to the following regulations:

- (a) **Outdoor advertising signs** shall be no larger than 300 sq.ft. per advertising face.
- (b) No **outdoor advertising sign** shall be erected less than 300' from a **residential use**, or a **residential zone**, whichever is closer. (Amend 2)
- (c) **Outdoor advertising signs** shall consist only of single **structures**, having either 1 advertising face, or 2 back-to-back advertising faces. There shall be no double-decked (stacked) or side-by-side **outdoor advertising signs**.

- (d) **Outdoor advertising signs** shall be erected no closer than 25' from the edge of any **street's right-of-way**, measured to the leading edge of the **sign**. They shall have a maximum height of 25'. However, for each foot of **setback** beyond 25', **sign** height may be increased an additional foot, up to but no higher than 50'. Should an **outdoor advertising sign** adjoin 2 or more **rights-of-way**, the shortest of the multiple **setbacks** shall determine the billboard's maximum height (Amend 13).
- (e) **Outdoor advertising signs** shall maintain a minimum clearance of 10' above the ground immediately beneath the **sign**.
- (f) **Outdoor advertising signs** shall not be placed closer than 1000' from each other. This distance is to be measured radially. (Amend 20)
- (g) However, if an intersection is already occupied by an **outdoor advertising sign**, a single billboard may be erected on the other (intersecting) **street** no closer than 600' from the center of the intersection, providing that it is oriented perpendicularly to the other (intersecting) **street**.
- (h) Regarding animation, an **outdoor advertising sign** may change its message or lighting no more than once per minute.
- (i) The **sign** area for an **outdoor advertising sign** with more than one face is computed by adding together the area of all **sign** faces visible from any one point. Where one **outdoor advertising sign** with two equally-sized **sign** faces are placed back to back, so that both faces cannot be viewed from any one point at the same time, and where such **sign** faces are part of the same **sign** structure and are not farther apart than half the length of the **sign**, the **sign** area is computed by the measurement of one of the faces. (Amend 20)

4-8-11 SUBDIVISION DEVELOPMENT SIGNS: (Amend 14)

- (a) **Freestanding signage** shall be permitted for each **subdivision** granted secondary approval by **APC** and recorded under the *Unified Subdivision Ordinance of Tippecanoe County*. Such **signage** is not subject to the requirements of 4-8-4 through 4-8-8. However it is subject to the following:
 - (1) A **subdivision development sign** shall be permitted within any zone, but shall be located only within the platted area of the **subdivision** it advertises. It shall only advertise the initial sale of vacant **lots** and/or spec buildings within that **subdivision**, but may include a map of the subdivision and the name, address and telephone number of any lender, builder or sales person. It may advertise any part or phase of that **subdivision**. A **subdivision development sign** that is located outside that **subdivision's** platted area, advertising that **subdivision**, shall be considered an **outdoor advertising sign**, subject to all requirements of 4-8-10 above.

- (2) A **subdivision development sign** shall only be permitted at a **subdivision** entrance to an existing perimeter public road. Each qualifying **subdivision** entrance shall only be permitted one sign. Each such **sign** shall consist only of a single **structure**, and may have either 1 or 2 advertising faces, neither of which shall exceed 100 sq.ft. **Sign** faces separated by not more than a 30° angle will be considered one **sign**.
- (3) The **subdivision development sign** shall not be located within any utility easement, nor within any **right-of-way**.
- (4) Such **sign** shall neither be an **animated sign**, nor a **changeable copy sign**.
- (5) Such **sign** requires a permit in accordance with 4-8-13-a below, and shall be removed within 30 days of the initial sale of the last vacant **lot** or spec building in the last part or phase of the **subdivision**.
- (b) The requirements in 4-8-11-a shall also apply to:
 - (1) recorded **parcelizations**,

4-8-13 (Amends 14, 29) **PERMITS REQUIRED:**

- (a) If one or more **signs** requiring a permit under 4-8-4 above is to be placed, constructed, erected, or modified on a **sign-lot**, the owner of the **lot** shall first secure a **sign** permit in accordance with 6-2-1 below.
- (b) A **temporary sign** on private property is allowed only upon the issuance of a **temporary sign** permit, subject to the following requirements: (Amend 40)
 - (1) A **temporary sign** permit allows the **use** of a **temporary sign** for a specified 30-day period.
 - (2) No more than 4 **temporary sign** permits shall be issued to the same business license holder on the same **sign-lot** in any calendar year (Amend 26).
 - (3) A **temporary sign** is allowed only in a **zone** with a letter "P" for **TEMPORARY SIGNS** in 4-8-4 above, subject to the requirements noted in that table.

4-8-14 (Amends 14, 29) **DESIGN, CONSTRUCTION, AND MAINTENANCE:**

All **signs** shall be designed, constructed, and maintained in accordance with the following standards:

- (a) All **signs** shall comply with applicable provisions of the adopted building and electrical codes of the participating jurisdictions at all times.

- (a) **signs** on utility poles not permitted under 4-8-16 (Amends 5, 14, 20) above; and
- (b) **signs** prohibited by state law or regulation.

4-8-18 (Amends 14, 29) **NONCONFORMING SIGNAGE:**

Nonconforming signage is a **sign** or a package of **signs** on a **sign-lot** that does not meet the requirements of 4-8-4 through 4-8-8 above, and which was otherwise lawfully installed on a given site at the time the applicable portions of 4-8-4 through 4-8-8 became effective. **Nonconforming signage** is subject to the constraints of 5-1-7 below.

4-8-19 (Amends 14, 29) **VIOLATIONS:**

- (a) The following are violations of this ordinance and are subject to the enforcement remedies and penalties provided in 6-3-1 below and by state law:
 - (1) to install, create, erect, or maintain any **sign** in a way that deviates from any plan or permit governing that **sign** or the **sign-lot** on which the **sign** is located;
 - (2) to install, create, erect, or maintain any **sign** requiring a permit without that permit; or
 - (3) to fail to remove any **sign** that is installed, created, erected, or maintained in violation of this ordinance, or for which a temporary **sign** permit has lapsed.
- (b) Each **sign** installed, created, erected, or maintained in violation of this ordinance constitutes a separate violation when applying the penalty portions of this ordinance. Each day of a continued violation constitutes a separate violation when applying the penalty portions of this ordinance.

4-9 BUFFERYARDS AND OTHER BUFFERING REQUIREMENTS**4-9-1 INTENT:**

- (a) **Bufferyards** and other separators shall be provided between certain dissimilar abutting **zones** and surrounding certain other **uses** to eliminate or minimize potential nuisances such as dirt, dust, litter, noise, odor, glare, **signs**, and incompatible **buildings** or **parking areas**, and to reduce danger from accident, fire or explosion.
- (b) **Bufferyards** serve as a physical as well as visual barrier. They vary in width, and contain landscape materials of varying densities called **standard plant units**. **Standard plant units** shall conform to one or more of the alternatives illustrated in Appendices D-1 and D-2. The width and density of required **bufferyards** depend on the level of separation needed between dissimilar abutting **zones** as shown in the tables in 4-9-3 below, and between dissimilar **uses** as shown in 4-9-7 and 4-9-8.

4-9-2 BUFFERYARD REQUIREMENTS:

- (a) **Bufferyards** shall only be required for:
 - (1) new **development** of land; or
 - (2) redevelopment of land except where the continued use of existing **buildings** and/or **parking areas** would occupy the space otherwise reserved for the **bufferyard**.

Where a complete **bufferyard** is already in place on an adjoining property, no additional **bufferyard** need be provided by the developer or redeveloper of the second property (Amend 13).
- (b) No **bufferyard** shall be required along an abutting **street** where that **street** serves as the boundary between **zones**, except as in 4-9-7 and 4-9-8 below.
- (c) Required **bufferyards** shall be located along the perimeter of a property, and shall extend to the **lot line**, except as indicated in 4-9-3-a, Footnote 1, below. They may not be located on any portion of an existing or dedicated **public** or private **street right-of-way**.
- (d) Required **bufferyards** shall comply with the **vision setback** requirements established in 4-4-7 above, and shall otherwise not create traffic hazards by obstructing the view of drivers using **streets** and private drives.
- (e) The type of **bufferyard** required between a **zone** undergoing new **development** or redevelopment and an abutting **zone** is determined by the tables in 4-9-3 below.

FOOTNOTES TO 4-9-3-a:									
1 If a residence in a rural zone is located within 150' of any boundary with an industrial zone, the new or redeveloping industrial land user shall provide a bufferyard on its side of all common lot lines within 150' of the residence. Should the common lot line run to the road, the bufferyard shall extend from the edge of its right-of way to a point 75' beyond the back of the residence. Should the common lot line not run to the road, the bufferyard shall run for 150', centered on the residence. The reduction in 4-9-4-b below applies.									

4-9-3-b NUMBER OF REQUIRED STANDARD PLANT UNITS AND BUFFERYARD WIDTHS FOR BUFFERYARDS, TYPES A-C:

TYPE OF BUFFERYARD	NUMBER OF STANDARD PLANT UNITS PER 150 LINEAR FEET	BUFFERYARD WIDTH
A	2	15'
B	3	20'
C	4	20'

4-9-4 STANDARD PLANT UNITS:

- (a) The drawing in Appendix E-1 shows the make-up of 5 acceptable alternative **standard plant units**. The drawing in Appendix E-2 shows what a required Type A, Type B and Type C **bufferyard** would look like using Alternative Unit 1 from Appendix E-1. The choice of **standard plant unit** alternative shall belong to the party required to provide the **bufferyard**.
- (b) Where there is less than 150' of length to buffer (or where there is a remainder of less than 150' after multiples of 150' have been accounted for), a percentage of the **standard plant unit** shall be provided, equal to that shorter length divided by 150'.
- (c) Plants shall be installed in accordance with the landscape element of an approved **site plan**, submitted under 6-2-5-a below. However in the event of **subdivision**, plants shall be installed in accordance with the landscape element of approved Construction Plans required by the Unified Subdivision Ordinance of Tippecanoe County. In the event of a **mobile home park / manufactured home community** or **recreational vehicle park or campsite**, plants shall be installed in accordance with the site plan submission, which includes 5-4-5-c-7 and 5-4-7-i below.

4-9-5 RESPONSIBILITY FOR BUFFERYARDS (Amend 13):

- (a) Where a proposed **use** abuts an unimproved property and a **bufferyard** is required because of a zoning boundary, the property owner of the proposed **use** need not provide more than half the **bufferyard** width and **standard plant units** required in 4-9-3 above.
- (b) Where a proposed **use** abuts an improved property and a **bufferyard** is required because of a zoning boundary, the property owner of the proposed **use** must provide all additional land and plant material needed to complete the full **bufferyard** required in 4-9-3 above: Where the abutting **use** was developed with half a required **bufferyard**, the property owner of the proposed **use** must provide the remaining half. Where the abutting **use** was developed with no **bufferyard**, the property owner of the proposed **use** is responsible for installing the entire **bufferyard**. However, existing plant material and/or land located on the improved property which meets the requirements of this section may be counted by the **Administrative Officer** as contributing to the total **bufferyard** that needs to be installed by the property owner of the proposed **use**.

- (c) The property owner of a proposed **use** required to provide a **bufferyard** may be exempted from providing all or a portion of the required **bufferyard** by recording a written agreement, approved by the **Administrative Officer**, that the adjacent property owner(s) will provide the remaining required portion.
- (d) The property owner will decide the exact placement of required plants.
- (e) In the event of **subdivision**, the subdivider shall install the required **bufferyard** as part of required public improvements.
- (f) The owner and/or possessor of a required **bufferyard** shall maintain it in accordance with the approved **site plan** or **subdivision** Construction Plans. Failure to do so is a violation of this ordinance as per 6-3-1-d below.

4-9-6 BUFFERYARD USE:

- (a) A **bufferyard** may be used for passive recreation, pedestrian, bike, or equestrian trails, or storm water management, provided that:
 - (1) no plant material is eliminated;
 - (2) the total width of the **bufferyard** is maintained; and
 - (3) all other regulations of this ordinance, and any ordinance of the appropriate drainage authority, are met.
- (b) However, in no event shall **accessory use swimming pools** and their associated decking, tennis courts, or other such uses be permitted in a **bufferyard**.

4-9-7 BUFFERING FOR CERTAIN OPEN USES:

- (a) Regardless of **zone**, the following **open uses** for which an application for **special exception** is required, shall demonstrate in that application that the requirements of 4-9-7-c through 4-9-7-e will be met before any operations begin:
 - (1) all mining operations (SIC 10-14);
 - (2) non-temporary batch plants (SIC 1611); and
 - (3) refuse systems (SIC 4953).
- (b) Regardless of **zone**, the following **open uses** for which no **special exception** is required, and that are not offices only, shall also comply with the requirements of 4-9-7-c through 4-9-7-e:
 - (1) non-temporary batch plants (SIC 1611);
 - (2) sewerage systems (SIC 4952);
 - (3) used motor vehicle parts (SIC 5015);
 - (4) scrap and waste materials (SIC 5093); and
 - (5) **junk yards** (SIC 5093).
- (c) The **open uses** listed in 4-9-7-a and 4-9-7-b above shall be surrounded by a **bufferyard** on all sides. The type of **bufferyard** required shall be a function of how far the **open use** is set back from its perimeter **lot lines**, as in 4-9-7-c-1.

4-9-7-c-1 BUFFERYARD REQUIREMENTS FOR CERTAIN OPEN USES:

SETBACK FROM LOT LINE ADJOINING:		TYPE OF BUFFERYARD
RURAL OR RES. ZONE	COMML. OR IND. ZONE	
100' - 149.9'	30' - 99.9'	C
150' - 199.9'	100' - 149.9'	B
200' or more	150' or more	A

- (d) These **open uses** shall also be totally and permanently enclosed by a security fence at least 6' high. The fence shall be erected within the **setback**, either in front of, within, or behind the required **bufferyard**. For mining operations, the fence shall only be removed in conformance with a Reclamation Plan approved by **ABZA** under 4-11-4 (Amend 5) below.
- (e) No portions of these **open uses**, including office functions, vehicles, machinery, storage, and piles of natural and manufactured materials, shall be allowed within the required **setback**.
- (f) Regardless of **zone**, the following **open uses** for which an application for **special exception** is required, shall demonstrate in that application that the requirements of 4-9-7-g will be met before any operations begin:
 - (1) motorized vehicle racing (SIC 7948); and
 - (2) gocart raceway operation (SIC 7999).
- (g) The **open uses** listed in 4-9-7-f above shall be surrounded by a berm measuring a minimum of 6' above grade, and having a maximum slope of 3:1.

4-9-8 BUFFERING FOR PRIMARY COMMUNICATIONS TOWERS:

- (a) The base of a **primary communications tower** (under SIC Group 48), including guy wire anchors, shall be totally and permanently enclosed by a security fence at least 6' high.
- (b) Should **ABZA** find that granting a **special exception** for a **primary communications tower** would be intrusive to an adjoining **use** or **zone** for which no **bufferyard** is required, **ABZA** may require a **bufferyard** as per 4-9-3 above, regardless of **zone**.

4-9-9 BUFFERING FOR CONTRACTORS AND BUILDERS IN A, AA & AW ZONES:

An outdoor storage area for materials and equipment associated with **primary uses** SIC 15 and 17 shall be totally and permanently enclosed by either opaque fencing, continuous landscaping meeting the standards of Bufferyard B, Alternatives 3 and/or 4, berming, or any combination of these, at least 6' high when adjoining a residential **use** or **residential zone**. (Amend 36)

4-10 INDUSTRIAL PERFORMANCE STANDARDS

4-10-1 INTENT:

The purpose of these performance standards in the regulation of industrial activities is as follows:

- (a) to permit potential industrial nuisances to be measured factually and objectively;
- (b) to ensure that all industries will provide methods to protect the community from hazards and nuisances which can be prevented by processes of control and nuisance elimination; and
- (c) to protect industries from arbitrary exclusion or persecution based solely on the nuisance production by any particular type of industry in the past.

4-10-2 APPLICATION:

- (a) These performance standards apply to land **use** activity in SIC Groups 20-39. However, the standards do not apply to machinery, equipment, and facilities which were at the site on the effective date of the ordinance. If there are questions about when items were brought to the site, documentation is the responsibility of the industry.
- (b) Any **use** established or changed to, and any **building, structure** or tract of land developed, constructed or used for, any permitted or permissible **primary** or **accessory use** shall comply with all the performance standards set forth in this section for the **zone** involved.
- (c) If any existing **use** or **building** or other **structure** is extended, **enlarged**, moved, **structurally altered** or reconstructed, or any existing **use** of land is **enlarged** or moved, the performance standards for the **zone** involved will be applied to that extended, **enlarged**, moved, **structurally altered** or reconstructed **building** or other **structure** or portion of it, and to that **use** of land which is **enlarged** or moved.

4-10-3 AIR POLLUTION:

- (a) Any **use** that emits any *air contaminant* as defined in *Indiana Code 13-1-1-2(d)* shall comply with applicable State standards concerning air pollution, as set forth in *Title 326* of the *Indiana Administrative Code*.
- (b) No **improvement location permit** shall be issued with respect to any improvement covered by 4-10-3-a above until the Indiana Air Pollution Control Board has certified to the **Administrative Officer** that the appropriate State permits have been received by the petitioner, or that the petitioner will be eligible to receive these permits and that the improvement is otherwise in compliance with applicable air pollution laws.

4-10-4 GLARE AND HEAT:

- (a) Glare is illumination caused by incandescent, fluorescent or arc lighting, or from high temperature processes such as welding or metallurgical refining.
- (b) In I1, I2 and I3 **zones**, any operation or activity producing glare shall be conducted so that direct or indirect light from the source shall not cause

illumination in excess of 0.5 **footcandles** when measured in any **residential** or RE **zone** (Amend 27).

- (c) No heat from furnace or processing equipment can be sensed at the **zone** boundary line that raises the temperature of ambient air or materials more than 5°F.

4-10-5 VIBRATION:

- (a) No continuous, frequent or repetitive vibrations shall be produced which exceed 0.002g peak (acceleration of gravity) on non-industrial zoned lands.
- (b) Vibrations from temporary construction and vehicles which leave the site (such as trucks, airplanes, and helicopters) are excluded. Vibrations from primarily on-site vehicles and equipment are included.
- (c) Vibrations of no more than 5 minutes in any one day will not be considered continuous, frequent, or repetitive for this regulation.
- (d) Seismic or electronic vibration measuring equipment may be used for measurements.

4-10-6 NOISE:

- (a) Noise shall be measured in **decibels** with a **sound level meter** meeting the latest standards of the American National Standards Institute (ANSI). The instrument shall be set to the A-weighting scale and the meter to slow response. Measurements shall be conducted in accordance with the latest ANSI method for the physical measurement of sound.
- (b) The table in 4-10-6-b-1 below specifies noise limits that apply on or beyond adjacent **lot lines** or **zone** boundaries outside the user's property. Noises shall not exceed the maximum sound levels specified in the table, except as designated in 4-10-6-d and 4-10-6-e below. Where more than one specified sound level applies, the most restrictive will govern. Measurements shall be taken at points of maximum noise intensity.

4-10-6-b-1 TABLE OF NOISE LIMITS:

PERFORMANCE STANDARD CATEGORY	MAXIMUM PERMITTED SOUND LEVEL (<i>dbA</i>)	POINT OF MEASUREMENT
A	55/45 ¹	On adjacent rural and residential land uses
B	60	On adjacent commercial land uses
C	65	Across I1, I2 or I3 zone boundary line

FOOTNOTES TO 4-10-6-b-1:

- ¹ In any **residential zone**, the maximum permitted sound level shall not exceed 55 **dbA** between 7:00am and 9:00pm and 45 **dbA** between 9:00pm and 7:00am.

- (c) The levels specified in 4-10-6-b-1 above may be exceeded by 10 **dba** for a single period, no longer than 15 minutes, in any one day.
- (d) For impact noise levels, the values in 4-10-6-b-1 above, increased by 20 **dba**, will apply. Impact noises will be considered to be those noises having peak values more than 6 **dba** higher than the values indicated on the **sound level meter**.
- (e) Noises not under the direct control of an industrial operation (such as independent transportation facilities) are excluded from the above limitations.

4-10-7 FIRE AND EXPLOSIVE HAZARDS:

- (a) Solid substances, ranging from **free** or **active burning** to **intense burning**, shall be stored, used or manufactured only within completely enclosed **buildings** having incombustible exterior walls and protected throughout by an automatic fire extinguishing system.
- (b) The storage, use or manufacture of flammable liquids or materials which produce flammable vapors or gases is permitted in accordance with the rules and regulations of the State Fire Marshall. A certificate of compliance, issued by the State Fire Marshall's office, stating that plans and specifications for an individual **use** comply with rules and regulations of the State Fire Marshall shall accompany the application for an **improvement location permit**.
- (c) No activity involving the storage, use or manufacture of materials that decompose by detonation shall be carried on except in accordance with rules issued by the State Fire Marshall and the State Building Commissioner.

4-11 MISCELLANEOUS RESTRICTIONS

MINIMUM FLOOR AREA FOR RESIDENTIAL USES:

4-11-1 Single-family dwellings shall have a floor area that exceeds 750 sq.ft. **Dwelling units** in **two-family dwellings** shall have a floor area that exceeds 600 sq.ft. (Amends 6, 15).

4-11-2 BOARDING, BREEDING, TRAINING AND RIDING HORSES:

- (a) SIC Code 0752, Boarding or training horses, describes those operations performed for horses that do not belong to the occupant of the premises.
- (b) When those same operations are performed for the occupant's horses, or when a non-occupant's horse is boarded for stud, SIC Group 02, Agricultural production -- livestock, applies.
- (c) SIC Group 7999, Amusement and recreation services not elsewhere classified (outdoor), describes situations like those in 4-11-2-a and 4-11-2-b above, plus an arena and / or riding trails. These include:

- (2) providing horses for hire; and
 - (3) boarding a non-occupant's horse for the purpose of riding it there.
- (d) Boarding, breeding, training and riding horses can be **accessory** to a residential **development**, if it occupies land within that **development** at least 5 acres in area, and is made available only to residents of that **development**. (Amend 5)
- (e) This 5-acre minimum shall also apply where such a facility is the **primary use** of the property.
- (f) Keeping up to 2 horses owned by a property's occupant is an **accessory use**.

4-11-3 BOARDING, BREEDING, AND GROOMING OF ANIMALS OTHER THAN HORSES AND FARM ANIMALS (Amend 31):

4-11-4 MINING RECLAMATION REQUIREMENTS:

This section requires the timely reclamation and restoration of extraction and processing sites (SIC Groups 10-14 in 3-2 above) to a useful and environmentally stable condition.

- (a) The petitioner shall formulate a Reclamation Plan as part of its submission to the **ABZA** for a grant of **special exception**. This plan shall be coordinated with and guided by the instructions of:
 - (1) the Indiana Department of Natural Resources where mining occurs in the **floodway**;
 - (2) the US Army Corps of Engineers, Louisville District, where mining occurs in the **flood plain**; and
 - (3) the US Department of Agriculture's Soil Conservation Service for compliance with 327 IAC 15-5 or its successor, with regard to soil erosion and sediment control.
- (b) The **ABZA**, with information provided by petitioner, shall establish a reasonable date by which excavation is expected to begin, and a period of time for excavation and reclamation, as a condition of any grant of **special exception** as per 6-4-4-d below, for any **use** listed in SIC Groups 10-14.
- (c) In order to grant a **special exception**, the **ABZA** must approve the Reclamation Plan and also make it a condition of its grant, as per 6-4-4-d below. The petitioner shall record the approved Reclamation Plan in the Office of the County Recorder. The petitioner must then provide **APC** staff with surety in favor of Tippecanoe County in an amount equal to \$3000 per acre of land within the approved **setbacks**, before seeking an **improvement location permit** (Amend 5).
- (d) If reclamation cannot be completed within 3 years of the grant of **special exception**, the petitioner shall apply to renew its **improvement location permit** for the unfinished portion. This application shall be accompanied by renewed surety for the unfinished portion at the same dollar-per-acre rate. The petitioner may seek additional **improvement location permit** renewals, and provide additional renewed surety, until reclamation is completed.
- (e) Failure to renew an **improvement location permit** or to provide renewed surety within 3 years shall void the grant of **special exception**.
- (f) The Reclamation Plan shall comply with the following standards:
 - (1) Grading and backfill shall contain neither noxious, flammable, nor combustible solids. Backfilled areas shall be graded to produce safe and appealing surfaces, designed to minimize erosion, and to blend with terrain features of the surrounding area. Graded surfaces shall be no steeper than 3:1 horizontal to vertical. Masonry materials may be included in the fill, but shall be covered by a minimum of 4' of dirt or overburden.
 - (2) All land surfaces shall be landscaped with grass or other ground cover, shrubs and trees. No portion of the **bufferyard** required in 4-9-7 above shall be removed.
 - (3) Any overburden or excavation material that does not suit the operator's needs may be moved aside or left in place, but shall be leveled, graded and landscaped to blend into the surrounding area.

- (g) When reclamation is complete, the petitioner shall submit a Final Reclamation Plan to the **ABZA** indicating compliance with the standards in 4-11-4-f above. The Final Reclamation Plan shall show finished topography and landscaping. Compliance with the standards in 4-11-4-f shall be certified by a Registered Professional Engineer, or a Registered Land Surveyor, or a Licensed Landscape Architect. Approval by the **ABZA** shall then release the petitioner from the conditions of approval and the performance bond.
- (h) If the petitioner fails to meet the requirements of 4-11-4-g within the time frame established in 4-11-4-b above, the **ABZA** may request the County to declare the bond in default. The **ABZA** may require all mining operations to cease, and the Reclamation Plan to be completed as originally submitted, using the proceeds of the defaulted bond.
- (i) From the time **ABZA** grants the **special exception** until the time that **ABZA** approves the Final Reclamation Plan, the petitioner shall conspicuously post a notice on all road frontages indicating **ABZA** has granted the **special exception**, and for what specific purpose it has been granted.

4-11-5 ADULT ENTERTAINMENT BUSINESSES:

- (a) The establishment of any **adult entertainment business** is prohibited if that **business** is within 500' of:
 - (1) any other **adult entertainment businesses**;
 - (2) the **lot line** of any church, public or parochial school, library, public park or county courthouse square, city hall or other public building; or
 - (3) the boundary line of any **residential** or **rural zone**.
- (b) The distance between one **adult entertainment business** and another **adult entertainment business** is measured in a straight line, without regard to intervening **structures** or objects, from the closest **lot line** of each **business**. The distance between an **adult entertainment business** and any church, public or parochial school, library, public park, county courthouse square, city hall or other public building, **residential** or **rural zone** is measured in a straight line without regard to intervening **structures** or objects, from the closest lot line of the **adult entertainment business** to the nearest **lot line** of the church, public or parochial school, library, public park or county courthouse square, city hall or other public building, or the nearest boundary line of the **residential** or **rural zone**.
- (c) If any **adult entertainment business** is part of or included within an **integrated center**, only the portion of that center or leased space occupied by the **adult entertainment business** shall be included in determining the closest **lot line** of that **adult entertainment business**.

4-11-6 BED AND BREAKFASTS:

- (a) A **bed and breakfast** is a form of transient guest accommodation either within a **single-family dwelling** or on a **farm**. The **residence** or the **farm** shall be owner-occupied if located in either a **residential** or **rural zone**.
- (b) Up to 5 rooms may be rented to guests, whether they be in the **residence**, or somewhere on the **farm**. If on a **farm**, these rooms shall be in a **structure** that qualifies for residential occupancy.
- (c) Because a **bed and breakfast** is not a rooming house or **multi-family dwelling**, guests occupying rented rooms shall stay at a **bed and breakfast** for no more than 14 consecutive days.
- (d) Because a **bed and breakfast** is not a restaurant, food service (other than that associated with the **residence**) is limited to breakfast; and breakfast shall only be provided for guests occupying rented rooms. Food service is subject to the regulations of the Tippecanoe County Health Department, and to Indiana State Department of Health *Rule 410 IAC 7-15.5* or its successor. Also, there shall be no cooking facilities provided within guest rooms.
- (e) To ensure compatibility with neighboring uses:
 - (1) the exterior of a **bed and breakfast** shall not be modified (or if built new, constructed) in any way that substantially lessens its basic appearance as a **single-family dwelling** or **farm**;
 - (2) guest parking for **bed and breakfasts** located in **residential** and **RE zones** shall be screened from adjacent properties by a 5 ft. high wood or masonry fence, or by sight-obscuring vegetation (Amend 27); and
 - (3) **signage** shall be limited to one **sign** no larger than the **zonal base rate** for the **zone** in which the **bed and breakfast** is located
- (f) To prevent disruption of residential neighborhoods through the proliferation of nonresidential **uses**, a **bed and breakfast** in a **residential** or **RE zone** shall not be located on a **lot** closer than 200' from any other **lot** containing a **bed and breakfast** (Amend 27).

4-11-7 COMMUNICATIONS TOWERS:

- (a) All **primary** and **accessory towers** are subject to the air space control height restrictions surrounding airports as shown in 5-3-4 below.
- (b) **Setbacks** for **accessory** and **primary communications towers** are measured radially, and depend on whether the tower is guyed or self-supporting:
 - (1) The base of a guyed **primary** or **accessory communications tower** shall be set back from all **lot lines** by at least 20% of the tower's height, or the distance between the tower's base and its guy wire anchors, whichever is greater. However, no portion of the above ground guying shall be permitted less than 6' from any **road right-of-way-line**; and

- (2) The base of a self-supported **primary** or **accessory communications tower** shall be set back from all **lot lines** by at least 20% of the tower's height, or the standard setback, whichever is greater.
- (c) **Accessory uses** for **primary communications towers** shall not include:
 - (1) offices;
 - (2) long-term vehicle storage;
 - (3) broadcast studios except if used only for emergency purposes; or
 - (4) other **uses** that are not needed to send or receive transmissions.In no event shall **accessory uses** for a **primary communications tower** exceed 25% of the **gross floor area** used for transmission equipment and functions.

4-11-8 RECYCLING COLLECTION FACILITIES:

- (a) In **residential zones**, a **recycling collection facility** shall be located only at apartment buildings or complexes (but only for use by building or complex residents), and on institutional properties (such as schools, churches, fire stations and government offices or other locations as suggested by the Wildcat Creek Solid Waste District or member jurisdiction). These must be placed on paved surfaces where possible.
- (b) The facility shall be set back no less than 100' from any **lot line**.
- (c) The facility shall not occupy any **parking spaces** required for other **uses** on the site.
- (d) No storage shall be allowed outside the containers.

4-11-9 ATMs (AUTOMATED TELLER MACHINES):

- (a) All applications to an **Administrative Officer**, for an **improvement location permit** to erect or structurally change an **ATM**, whether an **accessory use**, a **primary use**, or a **primary use building**, shall be accompanied by a **site plan** as per 6-2 below.
- (b) The **site plan** shall be approved by the **Administrative Officer** before issuing the **improvement location permit**.
- (c) The **Administrative Officer** may require changes in the location and arrangement of driveways, **structures, buildings, signs**, outdoor lighting and parking, as (s)he considers necessary to insure safety, minimize traffic hazards, and safeguard adjacent properties.
- (d) As an **accessory use**, an **ATM** is entitled to display any part of the total **sign** area calculated for the **sign-lot's primary use**, to be determined by the property owner or operator, as per 4-8-4 through 4-8-8 above.
- (e) As a **primary use** or **primary use building**, an **ATM** is entitled to all the **signage** permitted on its **sign-lot**, as per 4-8-4 through 4-8-8. (Amend 20)

5 SUPPLEMENTARY REGULATIONS

5-1 NONCONFORMING USES, MOBILE HOMES, MOBILE HOME PARKS/MANUFACTURED HOUSING COMMUNITIES, LOTS, STRUCTURES AND SIGNAGE, AND NONCOMPLYING USES

5-1-1 INTENT:

- (a) *Nonconforming uses, mobile homes, mobile home parks, lots and structures and noncomplying uses* were lawful *uses, mobile homes, lots and structures* before this ordinance became effective or was amended, but now they either:
 - (1) are prohibited in the **zone** in which they are located; or
 - (2) fail to meet current regulations or restrictions under this ordinance or its amendments;
 - (3) or both.
- (b) *Nonconforming signage* is a *sign* or a package of *signs* on a *sign-lot* that does not meet the requirements of 4-8-4 through 4-8-8 above, and which was otherwise lawfully installed on a given site at the time the applicable portions of 4-8-4 through 4-8-8 became effective.
- (c) It is the intent of this section:
 - (1) to permit *nonconforming uses, mobile homes and signs* to continue until they are removed or cease operation, but not to permit their expansion; and
 - (2) to permit *nonconforming lots and structures and noncomplying uses* to continue until they are removed, and to permit their expansion but only if that expansion is conforming and complying.
- (d) Note that illegal *uses, mobile homes, structures, lots and signs* existing at the time this ordinance was enacted or amended are not made legal by its enactment or amendment, unless made conforming or complying by the enactment or amendment.

5-1-2 NONCONFORMING USES:

- (a) A *nonconforming use* is a *primary use* of a *structure* or *lot* which is not permitted in 3-2 above to be operated in the **zone** in which it is located, and which otherwise lawfully existed at the time the applicable portion of 3-2 became effective.
- (b) A *nonconforming mobile home* is a specific type of *nonconforming use* addressed in 5-1-3 below.

- (c) Except for 5-1-4 below, an otherwise lawful **primary use** made a **nonconforming use** by this ordinance or an amendment to it, may be continued so long as it remains otherwise lawful, if:
 - (1) the land area of the **use** and/or the cubic content of its structure are not increased beyond what they were at the time this ordinance or its amendment became effective;
 - (2) it is moved neither in whole nor in part to any portion of its **lot** other than that which it occupied at the time this ordinance or its amendment became effective;
 - (3) no additional **structure** serving the **nonconforming use** is erected, other than is permitted in 5-1-5-b below;
 - (4) no additional or larger **signs** are erected which are intended to be seen from off the premises; and
 - (5) the **nonconforming use** is not **abandoned** for more than 1 year, except when government action impedes access to the premises. If a **nonconforming use** has been **abandoned** for more than 1 year, any subsequent **use** of that land shall conform to the requirements of this ordinance.
- (d) When a **nonconforming use** is damaged by any means to the extent that repairs would cost more than 50% of the replacement cost of that **use**, the **nonconforming use** shall no longer be permitted.
 - (1) When a **nonconforming use** in the FP **zone** is **substantially damaged** by any means to the extent that repairs would equal or exceed 50% of the market value of that **use**, the **substantially damaged nonconforming use** shall no longer be permitted in the FP **zone**.
- (e) A **nonconforming use** changed to a conforming **use**, shall never be changed back to a **nonconforming use**.
- (f) A **nonconforming use** may be replaced by another **nonconforming use** if the property owner demonstrates to the satisfaction of the **Administrative Officer** that the impact on surrounding **uses** of the replacement will be less than that of its predecessor. The **Administrative Officer** shall measure impact in terms of traffic generation, hours of operation, noise production and outdoor lighting.

5-1-3 NONCONFORMING MOBILE HOMES:

Mobile homes are designed to be movable rather than fixed **structures**. Because of that distinction, when a **mobile home** is a **nonconforming use**, the requirements of this section apply, rather than those of 5-1-2 above

- (a) A **nonconforming mobile home** is one which is not permitted in 3-2 above to be located in the **zone** in which it is in fact located, and which otherwise lawfully existed at the time the applicable portion of 3-2 became effective.

- (b) An otherwise lawful **mobile home** made a **nonconforming mobile home** by this ordinance or an amendment to it, may be continued so long as it remains otherwise lawful, if:
 - (1) the land area of the **use** and/or the dimensions of the **mobile home** are not increased beyond what they were at the time this ordinance or its amendment became effective;
 - (2) it is not moved to any portion of its **lot** other than that which it occupied at the time this ordinance or its amendment became effective;
 - (3) no additional **structure** serving the **nonconforming mobile home** is erected;
 - (4) the **nonconforming mobile home** is not **abandoned** for more than 1 year, except when government action impedes access to the premises. If a **nonconforming mobile home** has been **abandoned** for more than 1 year, any subsequent **use** of that land shall conform to the requirements of this ordinance. Termination of electrical service for more than 1 year shall be construed as evidence of intent to **abandon**.
- (c) When a **nonconforming mobile home** is damaged by any means to the extent that repairs would cost more than 50% of the replacement cost of that **mobile home**, the **nonconforming mobile home** shall no longer be permitted.
 - (1) When a **nonconforming mobile home** in the FP **zone** is **substantially damaged** by any means to the extent that repairs would equal or exceed 50% of the market value of that **mobile home**, the **substantially damaged nonconforming mobile home use** shall no longer be permitted in the FP **zone**.
- (d) A **nonconforming mobile home** changed to a conforming **use**, shall never be changed back to a **nonconforming mobile home**.
- (e) A **nonconforming mobile home** that has been **abandoned**, shall never be reoccupied, returned to its location or replaced by another **nonconforming mobile home**. However, in an FP **zone**, a **nonconforming mobile home** that has been **abandoned**, shall never be reoccupied, returned to its location or replaced by another **nonconforming mobile home**, regardless of time frame.
- (f) A **nonconforming mobile home** shall not be replaced by any other kind of **nonconforming use**.

5-1-4 NONCONFORMING MOBILE HOME PARKS/MANUFACTURED HOME COMMUNITIES:

- (a) An otherwise lawful **mobile home park / manufactured home community** made a **nonconforming use** by this ordinance or an amendment to it, may be continued so long as it remains otherwise lawful. The **nonconforming mobile home park / manufactured**

home community may be reconfigured, as long as the number of **lots** is not increased. Other changes may be made as well, such as adding paved **streets**, and upgrading other on-site **structures** and facilities. However:

- (1) the land area of the **nonconforming mobile home park manufactured home community** shall not increase beyond what it was at the time this ordinance or its amendment became effective, without submission of a new **mobile home park / manufactured home community** plan as per 5-4 below, for the additional land area.
 - (2) no additional or larger **signs** are erected which are intended to be seen from off the premises, unless such **signs** remain within the parameters of 4-8-4 through 4-8-8 above; and
 - (3) the **nonconforming mobile home park / manufactured home community** is not **abandoned** for more than 1 year, except when government action impedes access to the premises. If a **nonconforming use** has been **abandoned** for more than 1 year, any subsequent **use** of that land shall conform to the requirements of this ordinance.
- (b) When a **nonconforming mobile home park / manufactured home community** is damaged by any means to the extent that repairs would cost more than 50% of the replacement cost of that **use**, the **nonconforming use** shall no longer be permitted.
- (c) A **nonconforming use** changed to a conforming **use**, shall never be changed back to a **nonconforming use**.
- (d) A **nonconforming use** may be replaced by another **nonconforming use** if the property owner demonstrates to the satisfaction of the **Administrative Officer** that the impact on surrounding **uses** of the replacement will be less than that of its predecessor. The **Administrative Officer** shall measure impact in terms of traffic generation, hours of operation, noise production and outdoor lighting.

5-1-5 NONCONFORMING LOTS:

- (a) A **nonconforming lot** is a **lot** which does not meet the minimum requirements in 4-2 above for **lot area** or 4-3 above for **lot width**, and which otherwise lawfully existed at the time those minimum requirements became effective (Amend 18).
- (b) A **single-family dwelling** and its customary **accessory buildings** may always be erected on a **nonconforming lot** in any **zone** in which **single-family dwellings** are permitted, if:
 - (1) the legally created **lot** was either recorded in separate ownership or included in a recorded **subdivision** on or before January 2, 1998, the effective date of this ordinance (Amend 18); and

- (2) the **dwelling** and its **accessory buildings** otherwise meet all other requirements of this ordinance.
- (c) A **nonconforming lot** changed to a conforming **lot** shall never be changed back to a **nonconforming lot**.
- (d) No conforming or **nonconforming lot** may be made **nonconforming** or more **nonconforming** by use of Exemption E in the definition of **subdivision** in 1-10-2 above.

5-1-6 NONCONFORMING STRUCTURES:

- (a) A **nonconforming structure** is a **structure** (including a **building**) which entirely or in part does not meet the minimum requirements in 4-2, 4-4 and 4-5 above for **front**, **rear** or **side setbacks**, **lot coverage** or maximum permitted **building height**, and which otherwise lawfully existed at the time those requirements became effective. However, any conforming **structure** made a **nonconforming structure** by a government taking or by grant of **right-of-way**, shall be considered conforming within the context of this ordinance (Amend 7).
- (b) A **nonconforming structure** occupied by a **nonconforming use** shall not be moved on its **lot** or **altered**, except in a way that decreases the **structure's** nonconformity. **Altered** shall not be construed to mean **enlarged**.
- (c) A **nonconforming structure** occupied by a permitted **use** may be moved on its **lot**, **altered** or **enlarged** in any way, provided the alteration or enlargement either meets all requirements of this ordinance, or decreases the **structure's** nonconformity.
- (d) When a **nonconforming structure** is damaged by any means to the extent that repairs would cost more than 50% of the replacement cost of that **structure**, it shall only be reconstructed in conformance with the requirements of this ordinance. If it had been occupied by a **nonconforming use**, that **use** will no longer be permitted.
 - (1) When a **nonconforming structure** in the FP **zone** is **substantially damaged** by any means to the extent that repairs would equal or exceed 50% of the market value of that **structure**, the **substantially damaged nonconforming structure** shall no longer be permitted in the FP **zone**.
- (e) A **nonconforming structure** changed to a conforming **structure** shall never be changed back to a **nonconforming structure**.

5-1-7 NONCONFORMING SIGNAGE:

- (a) **Nonconforming signage** is a **sign** or a package of **signs** on a **sign-lot** that does not meet the requirements of 4-8-4 through 4-8-8 above, and which was otherwise lawfully installed on a given site at

the time the applicable portions of 4-8-4 through 4-8-8 became effective.

- (b) Otherwise lawful **signage** made **nonconforming** by this ordinance or an amendment to it, may be continued so long as it remains otherwise lawful, if:
 - (1) the **signage's** area is not increased beyond what it was at the time this ordinance or its amendment became effective;
 - (2) the **signage** is moved neither in whole nor in part to any portion of its **sign-lot** other than that which it occupied at the time this ordinance or its amendment became effective, or to a location that lessens the nonconformity ^(Amend 15); and
 - (3) the **primary use** of its **sign-lot** is not **abandoned** for more than 1 year, except when government action impedes access to the premises. If the **primary use** has been **abandoned** for more than 1 year, any subsequent signage on that **sign-lot** shall conform to the requirements of this ordinance.
- (c) When **nonconforming signage** is damaged by any means to the extent that repairs would cost more than 50% of the replacement cost of that **signage**, the **nonconforming signage** will no longer be permitted.
 - (1) When **nonconforming signage** in the FP zone is **substantially damaged** by any means to the extent that repairs would equal or exceed 50% of the market value of that **signage**, the **substantially damaged nonconforming signage** shall no longer be permitted in the FP zone.
- (d) If the distance from the edge of the **right-of-way** of on-premise **nonconforming signage** is further reduced by government acquisition of additional **right-of-way**, then it shall be moved to a distance from the new **right-of-way line** no less than the distance from the previous **right-of-way line**. If the distance from the edge of the **right-of-way** of conforming on-premise **signage** is reduced by government acquisition of additional **right-of-way**, it remains conforming.
- (e) **Nonconforming signage** changed to conforming **signage**, shall never be changed back to **nonconforming signage**.
- (f) **Signage** that failed to comply with the requirements of the previous regulations in effect at the time this ordinance or its amendment became effective, and which fails to comply with the requirements of 4-8-4 through 4-8-8 above, is neither **nonconforming** nor lawful **signage**.

5-1-8 NONCOMPLYING USES:

- (a) A **noncomplying use** is a **primary use** of a **structure** (including a **building**) or **lot** which fails to meet one or more of the requirements

of 4-2 and 4-6 through 4-11 above regarding minimum **vegetative cover**, parking and loading, entrances, **signs**, buffering, industrial or miscellaneous restrictions, and which otherwise lawfully existed at the time those requirements became effective.

- (b) A **noncomplying use** which is also a **nonconforming use** shall not be moved on its **lot**, **altered** or **enlarged**, except in a way that decreases the **use's** noncompliance, or in a way that prepares it for a permitted **use**.
- (c) A **noncomplying use** which is a permitted **primary use** may be **altered** or **enlarged** in any way, provided the alteration or enlargement meets all requirements of this ordinance.
- (d) When a **noncomplying use** is damaged by any means to the extent that repairs would cost more than 50% of its replacement cost, it shall only be reconstructed in compliance with the requirements of this ordinance. If it was also a **nonconforming use**, that **use** will no longer be permitted.
 - (1) When a **noncomplying use** in the **FP zone** is **substantially damaged** by any means to the extent that repairs would equal or exceed 50% of the market value of that **use**, the **substantially damaged noncomplying use** shall no longer be permitted in the **FP zone**.
- (e) A **noncomplying use** changed to a complying **use** shall never be changed back to a **noncomplying use**.

5-1-9 REPAIRS AND MAINTENANCE:

- (a) Discretionary repair and maintenance may be done on any **nonconforming use** or **nonconforming structure**, only if:
 - (1) the work consists of ordinary repairs, or of repair or replacement of non-bearing walls, fixtures, wiring or plumbing;
 - (2) the cost does not exceed 30% of the replacement cost of that **use** or **structure** in any 3-year period (Amend 7), or
 - (i) the cost does not exceed 10% of the market value of that **use, structure** or **mobile home** in the **FP zone** in any 1-year period and cumulatively does not equal or exceed 50% of the market value of that **use, structure** or **mobile home** in the **FP zone**; and
 - (3) the land area of the **use** and/or the cubic content of its **structure** are not increased beyond what they were at the time this ordinance or its amendment became effective.
- (b) **Structural alterations** shall not be made except as required by law.

5-1-10 WORK IN PROGRESS:

No change shall be required in plans, construction or designated **use** of any **structure** or **development** if:

- (a) an **improvement location permit** was lawfully obtained before the effective date of that ordinance or amendment; or
 - (b) construction plans were approved under the *Unified Subdivision Ordinance of Tippecanoe County* before the effective date of that ordinance or amendment; and
- the **building** or **development** is completed before expiration of its **improvement location permit** as per 6-2-4-a below.

5-2 SUBDIVISIONS, PLANNED DEVELOPMENTS AND CONDOMINIUMS

5-2-1 SUBDIVISIONS:

- (a) The subdivision of land in accord with the requirements of the adopted *Unified Subdivision Ordinance* is permitted in these **zones**: R1, R1A, R1B, R1U, R1Z, R2, R2U, R3, R3U, R3W, R4W, NB, NBU, OR, MR, GB, HB, CB, CBW, I1, I2, I3, A, AA, AW, FP and RE (Amend 27). The intended **primary use** of each proposed **lot** within a proposed **subdivision** determines the specific **zone** or **zones** appropriate to the land to be subdivided, as per 3-2 above.
- (b) However, the following kinds of **subdivisions** are only permitted in R1, R1A, R1B, R1U, R1Z, R2, R2U, R3, R3U, R3W, and R4W **zones**:
 - (1) major **subdivisions** intended entirely for residential **use**, and
 - (2) any portions of major **subdivisions** intended for residential **use**;
 - (3) other **subdivisions** intended entirely for residential **use** granted preliminary **plat** approval by the **APC** after May 1, 1975, and
 - (4) any portions of other **subdivisions** intended for residential **use** granted preliminary **plat** approval by the **APC** after May 1, 1975.
- (c) The only kind of **subdivision** permitted in an RE **zone**, is a **rural estate subdivision**, formulated and approved within the requirements of the adopted *Unified Subdivision Ordinance* (Amend 27).

5-2-2 PLANNED DEVELOPMENTS:

Planned developments are permitted only in these **zones**: PDRS, PDNR, PDMX, and PDCC, as per 2-26 above. PD zoning may be used to foster innovative and diverse design in land development that is still consistent with both the adopted *Comprehensive Plan* and the intent of the *Unified Zoning Ordinance*. As such, the requirements of Chapters 2 and 4 above do not apply to planned developments. All restrictions and regulations for a specific planned development are negotiated between the **APC**, the petitioner and participating checkpoint agencies, and thus are contained within the approved and recorded plan itself, having been arrived at prior to rezoning.

5-2-3 CONDOMINIUMS:

Condominiums, as defined and regulated in *I.C. 32-1-6 (the Horizontal Property Law)*, are considered for zoning purposes to be planned developments, and thus are permitted only in these **zones**: PDRS, PDNR, PDMX, and PDCC, as per 2-27 above. The PDCC **zone** shall be used in cases where the only change proposed for a **development** constructed no less than 3 years prior, is conversion to **condominium** ownership.

5-3 AIR SPACE CONTROL**5-3-1 INTENT:**

The maximum height of **buildings, structures**, and plant growth is regulated by this section -- under the authority conferred in *Chapter 283 of the 1955 Acts of the General Assembly of Indiana*, as amended -- in order to prevent the construction of obstructions to air navigation in the vicinity of any **public-use airport**. This protects the lives and property of persons living in that vicinity, and of those in aircraft which are approaching, taking off from, or circling that airport, promoting public health, safety and general welfare.

5-3-2 AIRPORT DISTRICTS:

- (a) Airport districts, which are overlay **zones**, consist of 2 parts, an **airport approach area** and an **airport circling area**.
- (b) Airport districts and their 2 parts are shown on an airport district map for each **public-use airport** in the county. These maps are part of this section of this ordinance.

5-3-3 AIRPORT DISTRICT REGULATIONS:

The regulations in 5-3-4 and 5-3-5 below apply to all land within an airport district, and are in addition to all other zoning regulations applicable to that land. In case of conflict, the more restrictive regulations control.

5-3-4 HEIGHT:

- (a) Except as in 5-3-4-b below, within the **airport circling area** or the **airport approach area** of an airport district, no part of any new **building, structure** or plant growth shall be constructed, located or grown, and no part of any existing **building, structure** or plant growth shall be reconstructed, relocated, or **enlarged**, so that it projects above either the **airport approach surfaces**, the **airport primary surfaces**, the **airport transitional surfaces**, the **airport horizontal surface**, or the **airport conical surface**, whichever is most restrictive.

- (b) However, projections may extend to a maximum height of 50' above the **established airport elevation**, except within the **airport approach** and **airport transitional surfaces**.
- (c) The maximum permitted height above ground level for any **building, structure**, or plant growth is computed as follows:
 - (1) Determine the elevation of the site in question in feet above mean sea level;
 - (2) Compute the difference between the site elevation and the **established airport elevation** (as shown on the airport district map);
 - (3) If the site elevation is higher than the **established airport elevation**, subtract the difference from the elevation of the **airport control surface** directly above that site; if lower, add the difference to the elevation of the **airport control surface** for that site. The result is the maximum permissible height.
 - (4) Proof of conformance lies with the property owner; any assistance by the **Administrative Officer** in finding applicable elevations is construed to be of assistance only. In cases of any doubt the **Administrative Officer** shall require an affidavit signed by a Registered Land Surveyor or Registered Civil Engineer, certifying that the height of the **structures** and plant growth conforms to this section.

5-3-5 USE RESTRICTIONS:

Notwithstanding any other provisions of this ordinance, no **use** shall be made of land or water within any airport district established by 5-3-2 above in such a manner as to either:

- (a) create electrical interference with navigational signals or radio communication between the airport and aircraft;
- (b) make it difficult for pilots to distinguish between airport lights and others;
- (c) result in glare in the eyes of pilots using the airport;
- (d) impair visibility in the vicinity of the airport;
- (e) create bird strike hazards;
- (f) or otherwise in any way endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport.

5-4 MOBILE HOME PARKS / MANUFACTURED HOME COMMUNITIES AND RECREATIONAL VEHICLE PARKS AND CAMPGROUNDS

5-4-1 INTENT:

This section details the process by which **mobile home parks / manufactured home communities (MHP/MHC)** and **recreational**

vehicle parks and campgrounds (SIC 7033) are approved, and covers regulations that are applied to them. **MHP/MHCs** are residential facilities; **recreational vehicle parks and campgrounds (RVP/Cs)** provide *en route* accommodations or serve as a destination site for people occupying **recreational vehicles (RVs)** and/or **tents**. **MHP/MHCs** and **RVP/Cs** involve the creation of individual **use** sites (called **mobile home park / manufactured home community lots** and **campsites** respectively), and internal circulation patterns, much like **subdivisions** and some kinds of planned developments. What distinguishes them is that no **mobile home park / manufactured home community lots** are created that need to be platted. To ensure adequate design and circulation, and to ensure that state mandated health-related standards are met, plans detailing the proposed **MHP/MHC** or **RVP/C** shall be submitted for approval by the **APC** at a public hearing before work can begin.

5-4-2 MHP/MHC AND RVP/C APPROVAL PROCESS:

- (a) Before **improvement location permits** can be sought (other than one that would permit filling in the **flood plain** for an area to be included in the **MHP/MHC** or **RVP/C**), or any on-site work can begin, plans for a new **MHP/MHC** or **RVP/C**, or an expansion of an existing **MHP/MHC** or **RVP/C**, shall be approved by the **APC** in a public hearing at its regular meeting. All such new plans and expansions are subject to the public notice and filing requirements of 5-4-3 and 5-4-4 below. Any change to a **site plan** approved under this ordinance, the elements of which are listed in 5-4-5-c below, shall also be approved by the **APC** in a public hearing at its regular meeting. However, this does not apply to a reconfiguration of the same number of lots, or the paving of previously unpaved internal **streets**, nor upgrading other on-site **structures** and facilities. But, a change to an internal **street** name does require approval of the **APC Executive Director**, the US Post Office, and the 911 Emergency Response System.
- (b) The filing deadline for a complete application for **MHP/MHC** or **RVP/C** plan approval is 30 calendar days prior to the date of the regular meeting at which the petitioner intends to have the request heard. The requirements for a complete application are listed in 5-4-4 below.
- (c) Notice of this public hearing shall appear in 2 local newspapers of general circulation at least 10 days before the hearing. Also, one or more signs notifying the public need to be posted on the affected property at least 10 days before the hearing. Details of public hearing notification appear below in 5-4-3.
- (d) At the hearing, the **APC** may either approve, conditionally approve or deny the **MHP/MHC** or **RVP/C** plans presented by the petitioner. If

the petitioner or the petitioner's representative is not present at the hearing, the **APC** shall dismiss the request.

- (e) **MHP/MHC-lots** may be vacated using the means described in *Indiana Code 36-7-3* or its successors, which describes the process for vacating **lots** in a **subdivision**.

5-4-3 PUBLIC NOTICE REQUIREMENTS:

- (a) A petitioner shall file 2 "Notices of Public Hearing on **Mobile Home Park / Manufactured Home Community and Recreational Vehicle Park**" and 2 "Notices of Public Hearing Release Forms" as part of a complete application for **MHP/MHC** or **RVP/C** plan approval. The Release Forms authorize **APC** staff to give the Notices of Public Hearing to 2 local newspapers of general circulation for publication at least 10 days before the date of the public hearing. Publication is at the petitioner's expense. Each newspaper will then bill the petitioner. Upon payment of the bills, the petitioner will receive each newspaper's Proof of Publication. The petitioner shall present both Proofs to the **APC** prior to the public hearing, or the request for plan approval cannot be heard.
- (b) At least 10 days before the date of the public hearing, the petitioner shall post one or more signs on (or in some cases near) the property for which **MHP/MHC** or **RVP/C** approval is being sought, advising the public of the impending hearing. These signs shall be purchased at the **APC's** offices. **APC** staff will determine the number and location of signs to be posted. On the day of the public hearing, the petitioner shall execute a "Sign Posting Affidavit" attesting that the required signage has been in place for at least the previous 10 days. The petitioner shall present the notarized affidavit to the **APC** prior to the public hearing, or the request for plan approval cannot be heard.
- (c) At least 10 days before the date of the public hearing, the petitioner shall send a "Notice to Interested Parties" to the owners of all property located adjacent to, and directly across the **street, alley**, or railroad **right-of-way** from the property for which **MHP/MHC** or **RVP/C** plan approval is being sought. These shall be sent by Certified Mail. The petitioner shall execute an "Affidavit of Notice to Interested Parties" attesting that all interested parties have been notified by Certified Mail. The petitioner shall present the notarized affidavit and all post office receipts from the certified mailing to the **APC** prior to the public hearing, or the request for plan approval cannot be heard.

5-4-4 FILING REQUIREMENTS:

- (a) Before an application for **MHP/MHC** or **RVP/C** plan approval can be submitted, the petitioner shall arrange to meet with **APC** staff to

review filing and design requirements. The petitioner shall bring to this meeting a proposed **MHP/MHC** or **RVP/C** plan drawn in sufficient detail so that staff can determine if design requirements are being met.

- (b) For a request for **MHP/MHC** or **RVP/C** plan approval to be considered complete, the following items shall be presented to **APC** staff no less than 30 calendar days before the regular meeting at which the petitioner intends to have the request heard:
- (1) a signed and notarized "Application for Approval of **Mobile Home Park / Manufactured Home Community** or **Recreational Vehicle Park and Campground**" with metes and bounds legal description of the property for which approval is being sought; and if FP-zoned land is present, a metes and bounds legal description of that portion of the property situated at or above the **regulatory flood elevation** determined by 2-25-17-a or 2-25-17-b above, certified by a Registered Land Surveyor or Registered Professional Engineer.
 - (2) a signed and notarized "Affidavit of Consent" from the owner(s) of the property if the petitioner is not the owner;
 - (3) a non-refundable processing fee in the amount established by the **APC** for **MHP/MHC** or **RVP/C** plan approval;
 - (4) a list of names and addresses of all interested persons (all owners of property located adjacent to, and directly across the **street, alley** or railroad **right-of-way** from the property named in the application), including the Auditor's Key Number for each interested person's property;
 - (5) 2 "Notices of Public Hearing on **Mobile Home Park / Manufactured Home Community** and **Recreational Vehicle Park and Campground**" each with a metes and bounds description of the property for which approval is being sought, and 2 signed "Notice of Public Hearing Release Forms";
 - (6) a letter from the Indiana State Department of Health indicating review and approval of the proposed plans in compliance with **IC 16-41-27** and **Rules 410 IAC 6-6** and **327 IAC 8-8-1** for **MHP/MHCs**, or **Rule 410 IAC 6-7** for **RVP/Cs**, or their successors;
 - (7) for any **RVP/C campsites** proposed to be located within a **floodway fringe**, certification from a Registered Land Surveyor or Registered Professional Engineer that none of the **campsites** would be located within the **floodway** established for that location by the Indiana Department of Natural Resources;^(Amend 38)
 - (8) letters from the Tippecanoe County Highway Department, Health Department and Drainage Board indicating review and approval of the proposed plans, plus evidence that providers have

- sufficient capacity and have approved the proposed plans regarding connection to public sewer and water supply systems;
- (9) 10 sets of **MHP/MHC** or **RVP/C** plans, fulfilling all requirements of all agencies listed in 5-4-4-b-6 through 5-4-4-b-8 above; no deviations from minimum state standards shall be permitted;
 - (10) signatures indicating that a full set of **MHP/MHC** or **RVP/C** plans have been received by the County Sheriff, the appropriate fire department, the appropriate school corporation, and the Tippecanoe Soil and Water Conservation District. If these agencies wish to comment to **APC** staff on these plans, they shall do so within 2 weeks of having received them;
 - (11) surety, in a form consistent with the guidelines in Appendix B-4 below, if public improvements are to be installed either on-site or off-site; and
 - (12) written justification identifying a proposed **RVP/C** as either an *en route* or destination facility.
- (c) A complete application for **MHP/MHC** or **RVP/C** plan approval shall be placed for public hearing on the **APC's** next regular meeting agenda. If the application is not placed on the next agenda because it is incomplete, **APC** staff shall notify the petitioner in writing of the application's deficiencies.

A complete **MHP/MHC** or **RVP/C** plan is certified by a Registered Engineer or Architect licensed to practice in the State of Indiana and meets all the design standards of 5-4-6 or 5-4-7 below. The owner, occupant or lessor of a **mobile home** in a **mobile home park/manufactured home community**, shall not build any permanent additions that attach to that **mobile home** that would add to the living space within.

5-5 HOME OCCUPATIONS AND RURAL HOME OCCUPATIONS

5-5-1 INTENT:

- (a) This section authorizes as **home occupations** and **rural home occupations** all **uses** that conform to its standards. In general, a **home** or **rural home occupation** is an **accessory use** located and conducted in such a way that neighbors, under normal circumstances, would be unaware of its existence except for a **sign** as permitted in 4-8 above. To establish whether a proposed **accessory use** qualifies as a **home** or **rural home occupation**, standards have been set to ensure compatibility with permitted **uses**, to maintain neighborhood character (whether urban or rural, residential or agricultural), and to clearly indicate a status that is secondary or incidental to an existing and occupied **dwelling unit**.
- (b) Because compatibility with permitted **uses** and neighborhood character vary considerably with location and zoning, this section distinguishes between what may be suited to all living environments and what may be uniquely suited to agricultural settings. Thus **home occupations** conforming to the requirements of 5-5-2 through 5-5-4 below, are permitted in any non-rural **zone** which authorizes the **dwelling unit** to which the **home occupation** is accessory, in A, AA and AW **zones** on **lots** up to 2 acres in area, and on all residential **lots** in RE **zones**; **rural home occupations** conforming to the requirements of 5-5-5 through 5-5-7 below, are permitted as an **accessory use** on rural-zoned **lots**, other than those zoned RE, larger than 2 acres in area (Amend 27).

5-5-2 HOME OCCUPATION USE REQUIREMENTS:

In addition to all other requirements applicable in the **zone** in which located, all **home occupations** are subject to the following:

- (a) No alteration shall be made to the exterior of the **primary use building** or to the **lot** which changes the residential character of that **building** or **lot**.
- (b) The operator of a **home occupation** shall be a resident of the **dwelling unit** and no employees are allowed who are not residents of that **dwelling unit**.
- (c) A **home occupation** shall not involve construction features or the use of any electrical or mechanical equipment or combustible materials any of which would change the fire separation requirements of the **primary use building**.
- (d) There can be no activity or storage of any kind related to the **home occupation** outside the **primary use building**.
- (e) A **home occupation** shall provide an additional off-street **parking area** adequate to accommodate needs created by the **home occupation**. This area shall contain at least 1 **parking space**, which shall be in addition to the **parking spaces** required for the **dwelling unit**. This **parking space** shall be provided on the same **lot** as the **home occupation**, and may be located in the **front setback** (but not in the **right-of-way**).
- (f) A **home occupation** shall not create noise, dust, vibration, smell, smoke, glare, electrical interference, fire or chemical hazard, traffic hazard, or any other hazard or nuisance to any greater or more frequent extent than would be expected from a normally occupied **dwelling unit** in that **zone** that has no **home occupation**.

- (a) The **ABZA-LD** is a 5-member board appointed as follows:

- (e) The staff of the **ABZA-LD** consists of the Lafayette **Administrative Officer**, the City Attorney and any other employees of Lafayette city government as assigned by the **Administrative Officer**.

6-4-3 RULES AND PROCEDURES:

- (a) The **ABZA** has sole authority to adopt any and all rules under I.C. 36-7-5-916, and any and all bylaws concerning organization, selection of officers, forms for applications, filing requirements (except for 6-4-3-c below), procedures, notices for and conduct of meetings. Upon adoption of these rules and bylaws they become applicable to the **ABZA** and the **ABZA-LD**.
- (b) The **APC** will provide suitable facilities to hold **ABZA** hearings, to store its recorded documents and accounts, and in its annual budget, to provide sufficient funds for the functioning of the Board and its staff. The Lafayette City Council will provide suitable facilities to hold the **ABZA-LD's** hearings, to store its records, documents and accounts, and in its annual budget to provide sufficient funds for the functioning of the division and its staff.
- (c) All applications for **variances** within the territorial jurisdiction of the **ABZA-LD** shall be filed by the petitioner with the **ABZA-LD** staff. It is the duty of the Lafayette **Administrative Officer** to file the original or copy with the **ABZA** staff within 3 days of receiving it from the petitioner. A certified copy of all decisions made on that request shall be transmitted to the **ABZA** as provided in I.C. 36-7-5-919(f). All other applications for **variances**, **special exceptions**, and requests for appeal shall be filed by the petitioner with the **ABZA** staff.
- (d) All hearings required for **variances**, **special exceptions** and appeals shall be made by the **ABZA**, or where appropriate, the **ABZA-LD**. As per 6-4-3-a above, procedures for public notice setting forth time and place for all hearings by the **ABZA** and the **ABZA-LD** shall be established by the **ABZA**.

6-4-4 SPECIAL EXCEPTIONS:

- (a) Rules regarding filing procedures and required public notice involved in applying for a grant of **special exception** are part of the bylaws of the **ABZA**, and are available from the **ABZA** staff.

- (b) To be eligible for a grant of **special exception** under this section, a petitioner shall first receive a determination from the **Administrative Officer** that a **special exception** is required for the intended **use**, or for the expansion, extension, or enlargement of a **use** under 6-4-4-h below. The **Administrative Officer** shall file a determination report (in a form prescribed by the **ABZA**) with the **APC**. The **APC** shall decide if the grant of **special exception** would have a substantial, adverse effect on the purposes served by this ordinance in furtherance of the *Comprehensive Plan*. The **APC** shall report its decision to the **ABZA** within 30 days of its receipt of the application, so that the **ABZA** can act on it.
- (c) The **ABZA** may grant a **special exception** for a **use** in a **zone** if, after a hearing under 6-4-3-d above, it makes findings of facts in writing, that:
 - (1) 3-2 above authorizes a **special exception** for that **use** in that **zone**; and
 - (2) the requirements and development standards for the requested **use** as prescribed by this ordinance will be met; and
 - (3) granting the **special exception** will not subvert the general purposes served by this ordinance; and
 - (4) will not materially and permanently injure other property or **uses** in the same **zone** and vicinity because of traffic generation, placement of outdoor lighting, noise production or hours of operation,
- (d) The **ABZA** may impose reasonable conditions on its approval as it deems necessary to find that 6-4-4-c-2 above will be served.
- (e) The **ABZA** may permit or require the property owner and/or the petitioner to make a written commitment concerning the **use** or development of the property as specified under *I.C. 36-7-4-921* (Amend 15).
- (f) If the **ABZA** grants the **special exception**, it will direct the petitioner to apply for an **improvement location permit** under 6-2 above. If that application complies with this ordinance and all other applicable codes and ordinances, the **Administrative Officer** shall issue the **improvement location permit** for the **use** authorized by the **special exception**.
- (g) A grant of **special exception** is unnecessary for a **use** authorized by 3-2 above if that **use** existed on the effective date of this ordinance or pertinent amendments to it. However, this subsection does not authorize the expansion of such a **use** if it involves the enlargement of a **building, structure**, or land area.
- (h) A **use** authorized by **special exception** shall not be expanded, extended, **enlarged**, or moved unless reauthorized by the **ABZA** under the procedures established in this ordinance for granting a **special exception**. However, additional **buildings** and phases

shall be permitted without reauthorization, if they were indicated on the original **site plan**, and the **use** itself is established within 1 year of **ABZA**'s grant of **special exception** (Amend 15).

- (i) A **special exception** granted for a specific **use** under 6-4-4-c or authorized by 6-4-4-g ceases to be authorized and is void:
 - (1) if that **use** is not established within 1 year of the date the **special exception** was granted; or
 - (2) if that **use** is discontinued at that site for a 1-year period during which time it is not succeeded by the same **use** specifically authorized as a **special exception**; or
 - (3) if the **use** in SIC Group 10-14 is not established within 1 year of the date at which excavation is expected to have begun, as established by **ABZA** for the mining operation.
- (j) A **special exception** may be terminated by the **ABZA** if it finds a failure to comply with the terms of this ordinance or to conditions or commitments attached to its approval. An application to terminate may be filed by an interested person, or a staff member or an **Administrative Officer**. The **ABZA** may take this action only at a public hearing, having given notice of that hearing to the property owner.
- (k) There can be no applications or classes of cases, nor any particular situation in which this ordinance authorizes either special **uses**, contingent **uses** or conditional **uses**.

6-4-5 VARIANCES:

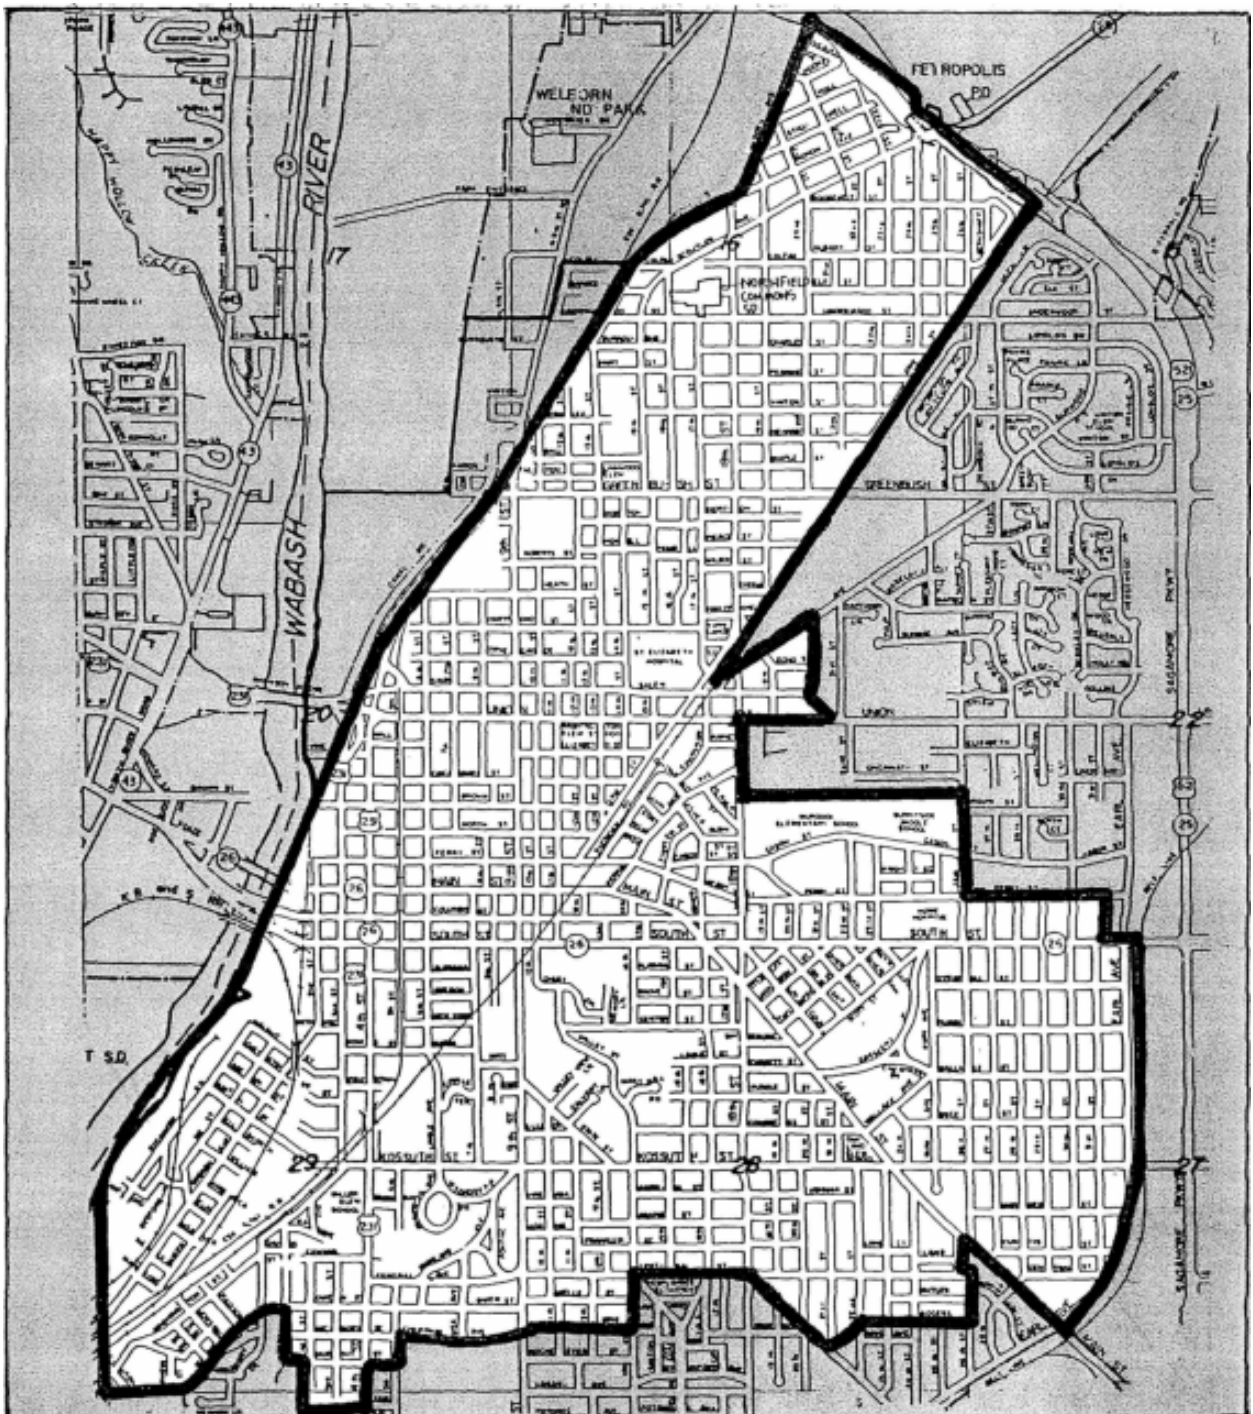

- (a) Rules regarding filing procedures and required public notice involved in applying for a grant of **variance** are part of the bylaws of the **ABZA**, and are available from the **ABZA** staff and the Lafayette City Engineer's office.
- (b) The **ABZA** or **ABZA-LD** may grant a **variance** from the *Zone Regulations* and *Additional Use Restrictions* in Chapters 2 and 4 above (except subsections 2-9-4 and 2-10-4, the R3U and R3W **density** caps; 2-10-11 and 2-11-11, the R3W and R4W maximum **building height**; 2-26, **Flood Plain Zones**; 2-27 **Planned Development Zones**; and 2-28-14 **Rural Estate Zones, Additional Requirements**) if, after a public hearing, it makes findings of facts in writing, that (Amends 18, 27):
 - (1) the **APC** or its Executive Committee has determined that the **variance** applied for is not a **use variance**, i.e. a **variance** from the Permitted **Use** Table in 3-2 above as prohibited by *I.C. 36-7-4-916* and *918.3* (Amend 15); and

- (2) the approval will not be injurious to the public health, safety, morals, and general welfare of the community; and
 - (3) the **use** and value of the area adjacent to the property included in the **variance** will not be affected in a substantially adverse manner; and
 - (4) the terms of this ordinance are being applied to a situation that is not common to other properties in the same **zone**; and
 - (5) the strict application of the terms of the ordinance will result in an unusual and unnecessary **hardship**; and
 - (6) the **hardship** involved is as defined in 1-10 above, and is neither self-imposed nor solely based on a perceived reduction of or restriction on economic gain; and
 - (7) the **variance** sought provides only the minimum relief needed to alleviate the petitioner's **hardship**.
- (c) The **ABZA** or **ABZA-LD** may permit or require a property owner and/or the petitioner to make a written commitment concerning the **use** or **development** of that property or may impose conditions upon the grant of **variance**.
 - (d) A **variance** granted by the **ABZA** or **ABZA-LD** applies only to the situation illustrated in the petitioner's **site plan**. It runs with the property (rather than the property owner or petitioner), but ceases to be authorized and becomes void when:
 - (1) the use of the **variance** ends;
 - (2) the property conforms with this ordinance as written; or
 - (3) the condition of the site changes so that it no longer conforms to the previously approved site plan.
 - (e) Where an owner and/or petitioner has failed to comply with any condition and/or commitment permitted or required by the grant of **variance**, the **ABZA** or **ABZA-LD** may authorize action it deems appropriate to obtain compliance by the owner and/or petitioner with the condition or commitment of the grant, or with the terms of this ordinance, in the same manner as if the **variance** had not been granted.

6-4-6 APPEALS:

- (a) Rules regarding filing procedures and required public notice involved in filing an appeal with the **ABZA** are part of **ABZA's** bylaws, and are available from the **ABZA** staff.
- (b) On an appeal under 6-4-1-d above, the **ABZA** may make any decision that an **Administrative Officer** might have made.
- (c) All appeals from the decisions of the **ABZA**, or from a decision concerning **variances** of the **ABZA-LD**, shall be made pursuant to *I.C. 36-7-4-1000 through 1020* (Amend 15). No appeals from the decision of the **ABZA-LD** within its jurisdiction, can be made to the **ABZA**.

B-4-5 FAILURE TO COMPLETE IMPROVEMENTS:

- (a) If the petitioner fails to complete required public improvements and/or improvements for common usage within the established period of surety, the participating jurisdiction may request that Tippecanoe County declare the surety to be in default. The County shall then have these improvements installed as per Final Detailed Plans, regardless of the extent of development within the PD at the time of default.
- (b) Upon inspection, if a participating jurisdiction finds that an improvement has not been constructed in accordance with Final Detailed Plans, the petitioner shall complete the improvement according to those plans. The petitioner and the entity providing surety shall be severally and jointly liable for that completion.

B-4-6 TEMPORARY PUBLIC IMPROVEMENTS:

The petitioner shall build and pay for all temporary improvements requested by the participating jurisdiction and required by the **APC**. The petitioner shall maintain them for the period specified by the **APC**. As part of the Final Detailed Plans submission, the petitioner shall submit separate suitable surety for temporary improvements, to insure that they are properly constructed, maintained and removed.

B-4-7 INSPECTION OF PUBLIC IMPROVEMENTS AND IMPROVEMENTS FOR COMMON USAGE:

- (a) If a participating jurisdiction or any of its agencies or departments finds that any of the improvements have not been constructed in accordance with the approved Final Detailed Plans, the petitioner shall be responsible for completing that improvement according to the Plans. Where the cost of the improvements is covered by surety, the petitioner and the provider of the surety shall all be liable for completing the public improvements or improvements for common usage according to specifications.
- (b) The petitioner's engineer or surveyor shall provide the participating jurisdiction with detailed "as built" construction plans of the improvements, indicating location, dimensions, materials, and other information required by the **APC** or participating jurisdiction. The petitioner shall provide the participating jurisdiction with a maintenance bond per B-4-8-b below.
- (c) The participating jurisdiction shall determine if all required improvements have been completed satisfactorily. Following a positive finding, the participating jurisdiction shall thereafter accept the public improvements for maintenance in accordance with established procedures, and the homeowners association shall accept the improvements for common usage.
- (d) It shall be the responsibility of the participating jurisdiction to provide the **APC** a copy of the maintenance bond, and notification of those improvements accepted for public maintenance.

- (e) Surety shall be reduced upon actual acceptance of public improvements or improvements for common usage, but only by the amount originally estimated for completion of those improvements.

B-4-8 MAINTENANCE OF PUBLIC IMPROVEMENTS:

- (a) The petitioner shall be required to maintain all public improvements on individual platted **lots** and provide for snow removal on **streets** and sidewalks, if required, until acceptance of public improvements by the participating jurisdiction.
- (b) The petitioner shall be required to file a maintenance bond, for a period of 3 years, with the participating jurisdiction, prior to acceptance, in an amount not to exceed 10% of the cost of all public improvements, and in a form satisfactory to the participating jurisdiction. This is to assure the satisfactory condition of the required public improvements for a period of 3 years after the date of their acceptance by the participating jurisdiction.

B-4-9 ISSUANCE OF IMPROVEMENT LOCATION PERMITS:

- (a) No **improvement location permit** shall be issued for a **dwelling unit** unless surety for public improvements has been filed, and the **plat** recorded.
- (b) No **improvement location permit** shall be issued for the last 10% of **lots** in a recorded **plat**, or phase, part or section of a **plat** (or the last 2 lots if 10% is less than 2), until all public improvements other than sidewalks, and all improvements for common usage have been fully completed and accepted for maintenance by the participating jurisdiction or homeowners association.

(FOR *PRIMARY USES OTHER THAN SINGLE- AND TWO-
FAMILY DWELLINGS*)

APPENDIX D-1: COMPUTING SIGN AREA PER SIGN-LOT

D-1 ON-PREMISE SIGN SIZE REQUIREMENTS

D-1-1 BASIC INFORMATION:

- (a) Total **sign** area depends on the specifics of a situation. The zoning ordinance recognizes that:
 - (1) heavier duty business **zones** need bigger **signs**;
 - (2) faster roads need bigger **signs**; and
 - (3) **buildings** set further back from the **road** need bigger **signs**.
- (b) The ordinance provides rewards for minimizing clutter by minimizing the use of **freestanding signs**.
- (c) The ordinance determines total square footage of **sign** area per **primary use**, but the number of **signs** used is entirely at the discretion of the land owner or occupant.
- (d) Should the **primary use** occupy more than one **frontage**, then the total for all **frontages** is added together, yet may be distributed to these **frontages** at the discretion of the land owner or occupant.

D-1-2 CALCULATING SIGN AREA:

- (a) Regardless of calculations, one is guaranteed a minimum **sign** area, called a **sign area assurance**. For the most part, **sign area assurance** equals the **zonal base rate** shown as Item A. in the following table, D-2 (Amend 5). These are exceptions:
 - (1) If a **primary use building** in an NBU or MR **zone** has a ground floor area of more than 15000 sq.ft., **sign area assurance** is calculated as 0.2% of that ground floor area (.002 x GFA).
 - (2) If a **primary use building** in any other **commercial zone**, or in any **industrial zone**, has a ground floor area of more than 20000 sq.ft., **sign area assurance** is calculated as 0.2% of that **ground floor area** (.002 x **ground floor area**).
- (b) Similarly, one is limited to a maximum amount of signage, called a **sign area cap**. This comes into use when the calculated maximum **sign** area per **sign-lot** exceeds 6% of the ground floor area of the **primary use building**. **Signage** is then limited to 6% of GFA.
- (c) An institutional land use (SIC Code numbers 801 through 972), operating in a **residential** or **rural zone**, has a **zonal base rate** of 20'.
- (d) In calculating the **road** speed limit multiplier (Item B in D-2 below), if the official **road** speed limit changes along the length of a **use's** frontage, the greater of the speed limits shall be used. (Amend 20)

- (e) Where a **sign-lot** has no actual **street frontage**, the **road** speed limit multiplier is derived from that of the adjoining **road** or **roads** from which the **primary use** derives its access, at that point of access.
- (f) **Frontage** along I-65 does not count in this calculation.
- (g) If the speed limit increases after **signs** are installed, permitted **sign** area may be recalculated and increased. If the speed limit decreases, there shall be no requirement to reduce **sign** area.
- (h) **Building setback** for the **building setback** multiplier (Item C), shall be measured from the edge of the **right-of-way** to the nearest wall (or gas station **canopy**).
- (i) 4-8-6 above indicates how much of **sign** area is permitted to be freestanding (Item D). The owner or occupant shall then figure:
 - (1) what percentage of the full allowance is intended to be used; and thus
 - (2) the multiplier to be awarded for minimizing **freestanding signage**.
- (j) (Deleted, Amend 20)

D-2 CALCULATING MAXIMUM SIGN AREA FOR A SIGN-LOT (Amend 20)**Step 1:** Calculate $A \times B \times C \times D$ (for every frontage) = E**Step 2:** Calculate $.06 \times$ GROUND FLOOR AREA of the primary use building; enter it as "F:" **only** if it is less than "E;" leave "F" blank if it is more than or equal to "E."**Step 3:** Maximum sign area = the lesser of "E" and "F."A
